Realisation

A glowing lightbulb hangs from a tree trunk in a dark, cave-like setting. The lightbulb is the central focus, emitting a warm, yellow light that illuminates the surrounding rock and wood. The background is dark and textured, suggesting a natural, underground environment.

We start to watch it and we can
be brainwashed, like a dream.

ABOUT SUNNY JETSUN

*Inspired by the sixties Sunny started traveling the world in 1970. His spiritual journey on the hippie trail to India took him through ~ San Francisco, Los Angeles, London, Amsterdam, Paris, Vancouver, Sidney and Kathmandu to Varanasi. His arrival on the sub-continent ~ was the beginning of writing autobiographical verses capturing his travel experiences, encounters with remarkable people and his quest for self-realization. Combining experimentation with drugs, sex, rock & roll, art, meditation, Love and life in general. Sunny started to open up to a multi-dimensional Universe. He lived the mantra, "Turn on, tune in, drop out" realising Mind's-illusions, inspired by deeper feelings of holistic nature, empathy * energy & Space.*

Over four decades Sunny has written and published 28 books of poetry, created over one hundred paintings, traveled the World and considers his masterpiece to be his daughter. He has spent the past sixteen years in Goa ~ India inspired by the freedom to experience and idealism of human consciousness.
