

An abstract painting featuring a vibrant, swirling composition of colors. The palette includes bright yellow, fiery red, deep purple, and cool blue, all rendered with expressive, visible brushstrokes. The overall effect is one of dynamic energy and cosmic movement.

*This book is a compilation of threads of **shared wisdom** that weave together a picture of life today. It shines a light into the darkness of the soul. We're Not Machines, they do not have a Cosmic conscious integrated through all life's dimensions of nature BUT we are being brainwashed by these corrupt criminals into believing we are nothing (And Water is Not a human right but we have to buy it from Nestle). These Corps. give all sorts of financial inducements to get those rights. Now they want to turn us into trans-humans without our informed ~ choice. They'll create a pandemic to lock us all down, isolate us, deny us our basic human rights and enforce it with their Totalitarian state. Is this what you want? You see that LIES are being told from the top. Is this the future you want for your loved ones, your society, Planet ~ There's been no opposition to this nightmare from responsible people, why? Why do these criminals walk free after such horrendous crimes? Isn't it obvious by now, what are you going to do about it Appeaser? Where's your courage to fight this scourge or are you a weak coward? There is no excuse for NOT knowing, it's out in the alternative media. Ask yourself, who You are, do you want to exist in a system of robots? Do you have a heart, soul, a spirit, feelings for nature, your children?*

*Sunny Jetsun is of that same weave as the Beat Generation, free spirit, anti-war and dictatorship ~ His writing, surrealistic inspiration, respect and love of life that also came with the alternative 1960's, which led many in their generational wave to turn on, tune in and drop out to find different paradigms, values, dreams of reality to where we now transcend the 'mind' to other dimensions of potential ~ These conceptions which have existed for 1000's of years were part of the hippies' sacred grail, and Sunny Jetsun took to the road to discover, experience, create and share their light. They became the new consciousness ~ A way of freedom that was not spoken before except by philosophers, dancing Sufis, energetic healers, poets. This way of life has now clashed with the hard forces of power, control, judgement, politics, paranoid security. People are now treated as beasts to be prodded into line, to obey the authority because they are not recognized as living beings with sovereign consciousness but as commodities, as the forests and the oceans to be exploited by these 'ruling entities'. They see themselves as masters of civilisations and we as their slaves and now they want to systemize us into a digital Matrix. War for them is acceptable, they are the weapons manufacturers; scamdemics are profitable as they're the pharmaceutical's business, shortages of products do raise their prices. Even during the Beat generation, the 60's revolution hipsters, artists represented alternative realities based on socialist, anti-war, anti-fascism, anti-imperial, anti-oligarchic-kleptocratic-Plutocratic, non-military regimes, with respect for humanity and our Planet Earth not just as resources to exploit to the death! There were wars on innocent people far away, no one questioned our governments we trusted them to do the right thing BUT. Sunny Jetsun is a part of that Non-conforming to Totalitarian blasphemy, interpretation that these entities, **DYNA\$TIE\$ WHO HAVE ASSUMED POWER FOR GENERATIONS MUST NOW BE HELD ACCOUNTABLE, RESPONSIBLE FOR THEIR ACTIONS, HIGH CRIMES AGAINST PEOPLE & THE PLANET WHICH TODAY ARE Obvious, that they have FAILED to PROTECT EARTH, DISTRIBUTE MORE EQUALITY; NOT EXCUSING MURDER AS COLLATERAL DAMAGE!** There was always this theme of spiritual solidarity in the alternative writers' works, **ART Shines a LIGHT** through their Creativity of heart, their music, dancing, portrayals of this manufactured Cruelty in the world. **CALL IT a REVOLUTION but PEOPLE and GAIA HAVE HAD ENOUGH of THESE DEMON\$! *The World, Nature has become out of balance ~  
All Development\$ go to High-technology for Power  
of the few who Sociopathically want to Rule it all ~  
by denying us our divine relationship through Nature.  
Therefore they destroy, rape and plunder all of Earth ~  
so they can control us trans-humanly in their simulations.  
The resources of the Planet are being squandered, wrongly,  
to develop these artificial realities for the rich to make wars!  
They are a Total Failure and their Crimes Against Humanity  
should be stopped now to correct the Natural balance of equality.*

~

*These observations are about the Balance of forces in the world ~  
and how this balance is being exponentially driven to the pseudo-  
fake, artificial unreal extreme, by forces which want to dominate  
the Planet and control everything through a Matrix system based  
on Technological advancement by Quantum computers and other  
intelligences. Their motivation as is made clear within is not love  
benign or even human in fact the opposite; evil, cruel, tyrannical,  
greedy, egotistic, domineering, supercilious, psychopathic, insane,  
paranoid, megalomaniac, all of the negative qualities imaginable  
and unimaginable from the evidence of inequality and oligarchy.  
The realization that we are now at a Tipping Point and the dark  
forces are now becoming visible to us by their deeds of inhumanity  
We have to be Aware now that in fact energies exist which have  
No human feelings and consequently their actions are so violent  
that they use these powers to dominate us all through FEAR and  
all the other psychological, mind-brainwashing techniques which  
exist and with propaganda they have made us prisoners as is seen  
now through the 'global pandemic' which has locked down Earth.  
The controlling of the world media, NGO'S and other authorities  
we've assumed wrongly were here to improve mankind's life are as  
control tools of a totalitarian 1% who want to set Agenda 2030 for  
all our lives, and that of all life on the Planet. So far over the last  
70 years with their Power they became a Plutocracy while 99.9%  
became slaves and our natural world was devastated by exploitation.  
It is Global Corporate plunder, with our sovereign rights denied...  
with all the distraction going on purposely to divide and conquer us.  
The fundamental reality is they are destroying Nature, our source ~  
They want to rule us with developments of High technologies, where  
we can all be surveilled 24/7, & each heartbeat monitored to predict  
reevaluate and socially control us in the herd as trans-human digits.  
Recognise they're Destroying Life ~ Nature to make us their Slaves*

*There are clear patterns shown here in the writing, commentaries and in the online links. The powerful, lies, deception, violence... coercion, censorship, propaganda, brainwashing shown to control a narrative so that we the people comply as now in covid lockdown. We are treated as no more than slaves and the Earth is exploited to suit the agenda of the ruling class represented by those NGO's such as WEF whose 2020 Davos attendees are listed at the back. Their vision of 'future progress' can be seen from the members of these global corporations, of banks, oil, pharmaceutical, military, Political cartels are there to continue the extreme inequalities and max destruction which has been their legacy of failure for 70 years. It is also made clear made here what happens to those who try to tell the truth and resist these elitist sociopaths; witness Assange's torture.*

Your Higher Cosmic Singularity Vibes ~ Over their Artificial-Virtual Simulations

**These words** invite you to *Imagine* having gone on a trip in space, leaving Earth in 2020 with its duality ~ of co-existence \* The Natural energy, the human world, a technological paradigm being developed to be the most dominant tool, weapon in the hands of the few who own the world. The system created over millennia has evolved to a point where a small number of megalomaniacs living within the psychopath spectrum have reached the level of paramount madness where they believe they have the right and power to rule the world ~ To dictate to every sovereign being their reality which is a dystopian enslavement controlled by their robotic-Police, military, bureaucratic authority under the aggressive Agenda of a Global Corporate oligarchy matrix. You are as the soul who fell to Earth, a stranger in a stranger land who despairs at the loss of natural spirit ~ The world was always unequal, violent, destructive, insecure but usually this was due to the same dark forces that have metamorphosized into the Cabal of today. They want to control everything and from what we see they have all the wealth, they are murdering the planet with their Military Industrial complexes and Death machines, they have no humanity as we see from the way billions of people are left to survive perilously in extreme fear. So much of the Planet's richness has been squandered by these sociopaths to get them to this position, as Absolute Kings chosen by 'God', Emperors, supreme beings who built Empires to their greed. You have arrived on an Earth in total Lock-down, the people's liberty has been eroded with a viral panic set about mysteriously, unaccountably by a freak accident of Nature or a devious bio-weaponised source ~ which has been used by All these governments and their masters of the underworld to sow havoc in people's minds and hearts. We are not allowed any social contact, there is no school, socializing, even the holy church has acquiesced to this bargain with the Devil! There is no rational debate any critical thinking is condemned as heresy, those willing to speak the truth are taken to Her Majesty's prison for Assange psychological torture This is Earth 2021, take a tour but you can't you'll be arrested, fined or burnt at the proverbial witch's stake. This is a vision of the future that these in Control want to maintain for you and your family if you continue to accept their lies and deceptions, their propaganda, brainwashing, hypnotising, hypnagogic bewitching ~

Read this guidebook to these occult realms of dark powers used to take over your minds and souls. Observe the intention of these entities, how the world is at its most unequal, and nature's resources are being raped; they love to make all the money and will cause illegal wars to sell their weapons of Death, whether it is a nuclear missile or famine or poisoning the whole ocean. Who is responsible? They are without morality, empathy, human feelings, they exist and they are the New Nazi army! Time to say **No** and kick these maniacs out and NEVER let them return with their gene-egoseed. This 'Science Fiction' story will take you to the inner depths of the labyrinth of subconsciousness ~ This is the moment to become aware of who You really are, and the potential for our True Spirit. Heirloom Seeds not in Hidden Hands

*This anthology travels through the spectrum of surreal poetry to political reportage. It explores many feelings over 50 years of experiencing life in 'the world, our sense of place'. How our values, opportunities, dreamings, perceptions and living have been engaged, changed, how our vision of ourselves has evolved individually and as a global collective. The development of society, the manifestation, interpretation, inner relationship to the 'matrix' and the effects on Nature and other creatures inhabiting Planet Earth. The modern discoveries have given us new realities, opened up amazing possibilities, concepts of multi-dimensional energetic beingness ~ interrelated to Consciousness. We have also realized the dominating power of 'elite' forces whether historical, dynastic conglomerations or a new paradigm of a Mad World Order, cabals dictating through controlling of ideas, propaganda, tyranny, sociopathy, science to super computers wanting to access every entity to regulate our minds, sub consciousness remotely, automatically without any free choice. The fundamental question of 'Who am I, where am I from, and where am I going?' has never been more crucial to understand. People have become aware on different existential levels due to access of information and the future of life itself has become critical whereby, .1% control 99.9%, six business men have as much wealth as 50% of the poorest inhabitants of the planet and they're intent on preserving and increasing their power and so this immense, disproportionate inequality to an extent where the population of the whole world is becoming enslaved not metaphorically but in reality both physically and metaphysically. This writing offers an insight into these 'dualities' which are intrinsic to life today. It also shines a light on Love, art, culture, morality, survival ~ nature, education, democracy, psychopathy, ideology wisdom, inspirational poetry such as Gibran, Rumi, the truth-tellers fighting the oligarchies, the equal rights activists, Dr Martin Luther King, Julian Assange, and the unknown fighting on behalf of human idealism. New discoveries are opening the quantum fractals of our mind, our hologram code not a predictive simulation to be controlled by some intelligence somewhere tweaking invisible algorithms, our DNA on behalf of their deity, which lives at the World Economic Forum! Life is simple sharing loving kindness from the heart. Each Fragment of life is sacred, these are your children.*

**Time for Change** ~ a complete overhaul starting from the top, those responsible for making this total mess!  
This writing has gone from 'Gone with the wind to 1984 from the Prophet to the Art of Psychological War'.  
This due to the circumstances existing at this time, during the Covid Pandemic, in the Global, social medias  
and the agendas being set by the deep state, international corporations, politicians, the Intelligence agencies,  
and secret forces working hand in hand with Oligarchic, Kleptocratic Plutocratic forces for Earth dominance.  
These events are impossible to escape and are the template for all intelligent enquiry from Spiritual, occult to  
the darkest forces and light forces existing in the Universe. There is a raging battle for the soul of our Planet ~  
The premise here is that all political powers have been taken over today and due to what has happened to the  
World over a time scale of the last 75 years (after WW11) we can see as Eisenhower saw that there are forces  
which act from the shadows without any accountability, have plundered the world and fully raped the nature  
These New World Organizations have criminally failed humanity and all life, in fact it can be seen that they  
have been specifically acquired by these entities through funding, debt, 'national security' corruption to fulfill  
the ambitions of these cartels-conglomerations-cabals to absolutely take power over every aspect of human life

~

All of these organizations with all the authority and money to make the world a better place have obviously  
ruined it. People's lives have got worse, the Planet is under constant attack from these poisonous minds ~  
All Governments working together are acting in satanic ways either through war, financial imperialism,  
sanctions, exploitation of labour and land with no rights to the workers but increases in profits, control.  
This is all too clear yet we continue through propaganda and brainwashing tactics to doubt these truths.  
Oxfam's figures on the inequality is clear, 6 people we know of have more wealth than the poorest 50%  
of Earth's population. More and more indigenous peoples are losing their rights to their meagre land,  
instead they are to be exploited for their resources, to only benefit the corporations and their lobbyists  
who are the politicians, with the power in Government acting at their behest. This is nothing new  
we can see from history, N America, Australia, Africa, Asia how colonialism benefitted the rich.  
The 1%, the Royal families, the aristocrats, the Establishment, supported by the financial elite.  
These demons are the ones who created and developed slavery on a mass scale and made it legal.  
These forces are the same ones, their Forums, think tanks, foreign councils, still encouraging this.  
Realise that this Establishment has not changed one thing, in fact they've made it infinitely worse,  
and yet we sit there and say 'Yes Master what can we do for you' as we lose our sacred right to life.  
Bill Gates is the biggest owner of agricultural land in the USA and has invested \$100's of millions  
in GMO'S, genetically modified organisms and now he wants to jab your children with unproven  
vaccines that he's not liable for and he's funded many of the organizations supporting this agenda.  
This book is a commentary on these events happening now and shining a light on those responsible  
for these actions and for those going back to the beginning of this era of technological innovations ~  
but instead of freeing people they have been used, eg. in surveillance with the help of legal sorcery,  
to take away your sovereign rights so that you have become a debt slave to them without recourse.  
Maritime, Parliamentary legalese are meaningless as has been shown with this State of Emergency.  
We now exist in a Totalitarian Dictatorship where there has been no allowance for scientific debate.  
We are fed lies, backed up by militarized robotic police forces who follow their orders without thinking.  
You have lost all of your rights because less than 0.025% of the population has died with the flu. WHY?  
Only Fear, protest isn't allowed, where are our democratic leaders speaking up for our inalienable rights?  
You can't bury family, can't have a wedding, can't go to school, can't travel, can't criticize, can't kiss ~  
Those who have orchestrated this, as the virus didn't appear from Mars, someone is responsible and...  
there are numerous culprits. Those who falsely used the power to isolate us, lock us down, taken away  
our livelihoods; bureaucrats hiding in the shadows doing the bidding of those who seem in total control.  
They have destroyed Society, and the Planet and become mega rich while they made us poor prisoners.

### The Point of Progress Is

*Development, research, finance, exploitation within the duality of existence; if we support one thing another thing is not supported ~ With war there is less peace, one man's terrorist is another man's freedom fighter, light and dark, happy, unhappy, life and death ~ Yet everything is frequency and consciousness beyond the illusions ~ of a 3 dimensional material world. We are quantum energy, atoms. However, the human mind is concerned with its own self-existence ~ within its own physical-mental parameters (see Nyanaponika Thera), which explains the Buddhist view of consciousness, the essential being the sub conscious, the Bhavanga citta. It is this which is our essential life stream of human consciousness, behaviour and evolution. This is exactly what the 'Materialist-trans-humanists' want to control-dictate so a Matrix of beings (cabal) will through technological advancement want to systemize, regulate everything in their 'only material reality'. We Now see the product of this type of system (matrix) where through an engineered virus the world's populations have been Locked down, imprisoned as cattle in pens waiting for their branding and slaughter. Nature is being destroyed on unprecedented levels, people have lost... their sense of Human Identity, are masked and isolated mandatorily, now with no legal rights as sovereign beings in this Totalitarian state. A psychological war is in progress on You and your family, society, and people have accepted it as the truth and the media working with these governmental and NGO bureaucracies and foundations, think-tanks, arms of national security, intelligence, police, military, church, have joined in this masquerade, this hoax, comedy of terrors, the mad megalomaniacal, Machiavellian, Satanic, diabolical delusion of life ~ We see from many contradictions described here, the curtain has been raised and we're able to witness the Emperor in the room as only fake simulation, directed by forces using evil dark intention to hypnotise us through FEAR and obedience to their insanity. What is the result of their Master plan, they are enriched, so six people have same wealth as the poorest 50% of people on Earth and they hoard it in tax havens NOT to be reinvested in projects to benefit the whole of the population of the world and to secure the future of nature and all living creatures. No, theirs is a tyranny to only enrich themselves. During the 'global Pandemic' the 10 richest have gained billions whilst most people have lost their basic livelihoods and are being treated as criminals, when it's clear who are the elitist criminals. They're forcing their Agenda 2030 onto us, their vision of the future benefits ONLY THEM, NOT US! Isn't this obvious by now, that your children are predestined for some surveilled, microchipped, bio-digital identity in a dystopian schematic? See the Financial crash of 2008 (Inside Job), how bankers caused the financial crisis. Fukushima, Amazon's fires, unnatural disasters, BP's Gulf oil spill, man-made Why? Who's responsible and why were they allowed to escape with their Profits Prime Minister? Panama Papers, the whistleblower was blown up! Tax-financial corruption continues. Is this the direction we want or to recalibrate-rebalance in favor of ~*

*Nature, human nature as our divine platform for life. No plastics but hemp, no private prisons for a spliff when they are drinking children's adrenalin in a Luciferian cocktail. Mr. Mossad Epstein was working for 'Intelligence'; is systematically raping children and getting away with it. Which Intelligence is responsible for that; Prince Andrew, Bill Gates, Mr. and Mrs. Clinton and most everyone else on Lolita's flight manifest to Pedophile Island for unspoken acts. Wake up and reclaim your sub-conscious for nature or let it be a slave to obviously demonic, unnatural force. 'Viral video depicting IDF soldiers forcibly arresting children, 8-13, while picking vegetables, in Akoub, southern Hebron' How did you get the German people to accept all this? He replied... 'It was very easy, it has nothing to do with Nazism, has something to do with Human Nature. You can do it in a Nazi, socialist, religious, fascist, communist regime, in a monarchy and even in a democracy. Only thing that needs to be done to enslave people is to SCARE them if you manage to find a way to Terrify humans, you can make them do whatever you want.' by Daniel Raventós & Julie Wark.' (Can we see a Pattern yet?)

*'One little-known aspect of the genocide in West Papua is that sexualized violence is a big part of the general violence that's driving people from their land. And this fits into a global pattern of war rape. A penis is an easily transportable weapon of biological warfare, so in recent decades systematic war rape has been recorded in the Balkans,*

*Bangladesh, Rwanda, Uganda, Myanmar, East Timor, Congo, Sierra Leone, Liberia, Kosovo, Darfur, West Papua, and elsewhere.*

*This is a strategy that undermines the dignity and morale of the victim population by destroying, long-term, the basic fabric of society. It's also a sadistic instrument of torture when men are forced to watch their wives and daughters being raped, a way of mocking the masculinity of men who can't protect their wives.'*

~

*What is 'creative' sexualized sadism? To give an example, one informant 'witnessed the penises being cut off a number of men in his village. Another informant saw the vagina cut out of a woman and her husband made to eat it' This apparently random terror becomes total terror because any woman can be a victim, so the indigenous people flee their land. Then the military claims it, bringing about social and environmental catastrophe in the process. But the terror isn't really random. It's deliberate. The relationship between extractive industries and sexual violence is clear in reports of systematic rape of women in the surrounds of Grasberg, site of the world's largest gold and second largest copper mine-of the notorious Freeport-McMoRan - which, for thirty years, has been dumping millions of tons of heavy-metal mine waste into the Ajkwa river system, and also destroying lowland and mangrove forests before fouling the Arafura Sea.' The Terror Textbook to give us **FEAR**. Once people are afraid they can be manipulated and oppressed etc. Again who is gaining from this inhuman action? Those at the top!*

*The United States and its allies have dropped at least 326,000 bombs and missiles on countries in the greater Middle East/North Africa region since 2001. That is the conclusion of new research by Medea Benjamin and Nicolas J.S. Davies of anti-war group CODEPINK. Iraq, Syria, Afghanistan and Yemen are the countries that have felt the worst of the violence, but Lebanon, Libya, Pakistan, Palestine and Somalia have also been targeted. The total amounts to an average 46 bombs dropped per day over the last 20 years. (Why?) CODEPINK's numbers based primarily on official US. military releases, and data from the Bureau of Investigative Journalism, the Yemen Data Project, and the New America Foundation. As striking as the figure of 326,000 is, it is an underestimate, as the Trump administration ceased publishing figures of its bombing campaigns in 2020, meaning there is no data for Iraq, Syria or Afghanistan for either of the previous two years, also not counted are bombs or missiles used in helicopter strikes, AC-130 gunship attacks, strafing runs of U.S. bombers, or any counterinsurgency or counter-terrorism operations in other parts of the world'. 'Bill Gates is a caricature for a James Bond Super villain'

Orwell's 1984 is the literary, classic political insight. Ian Fleming who created James Bond was also at the top of British Intelligence throughout WW11 + so another insider. It's interesting how his global villain after the Russians (Cold War) SMERSH was slick SPECTRE an altogether different, psychopath, ruthless enemy of mankind, a mafia syndicate who would steal Nuclear weapons to sell. They had No empathy, a bit like how the Cabal of today is portrayed. Let's hope the good guys win by the end of the film ~

'Vandana Shiva on Bill Gates: "Gates hails synthetic fertilizer is the greatest agricultural invention. Doesn't he realize synthetic nitrogen fertilizers are creating desertification, dead zones in the ocean, and nitric oxide, which is a greenhouse gas?" Shiva says "In short, he's offering the problem as the solution. Gates also, apparently, does not understand that nitrogen-fixing plants can fix nitrogen. He incorrectly claims that plants cannot fix nitrogen. Gates is equally wrong about methane production from livestock." "Have you smelt methane behind nomadic tribes?" Shiva asks... "Have you ever smelt methane behind our sacred cow in India? They don't emit methane" The reason cows in concentrated animal feeding operations (CAFOs) emit methane that stinks to high heaven is because they're fed an unnatural diet of grains and placed in crowded quarters. It's not a natural phenomenon. It's a man-made one"

~

'B. Gate's Digital Agriculture - entails the introduction of a digital surveillance system. So far, Shiva's organization has managed to prevent Gates from introducing a seed surveillance startup, where farmers would not be allowed to grow seeds unless approved by Gates surveillance system. The data mining, Shiva says, is needed because they don't actually know agriculture. This is why Gates finances the policing of farmers. He needs to mine their data to learn how farming is actually done. This knowledge is then repackaged and sold back to the farmers. It's evil genius at its finest. Through his funding, Gates now also controls the world's seed supply, and his financing of gene-editing research has undercut biosafety laws across the world. As explained by Shiva, the only country that doesn't have biosafety laws is the U.S. "The rest of the world does because we have a treaty called the Cartagena Protocol on Biosafety." she says. "While he created the appearance of philanthropy, what he's doing is giving tiny bits of money to very vital institutions. But with those bits of money, they attract government money, which was running those institutions. Now, because of his clout, he is taking control of the agenda of these institutions. Meanwhile, he's pushing patenting, be it on drugs, vaccines or on seeds." "Taken together, Gates ends up wielding enormous control over global agriculture and food production"

*'Bill Gates, the fourth richest person in the world and a self-described nerd who is known for his early programming skills rather than his love of the outdoors, has been quietly snatching up 242,000 acres of farmland across the U.S. enough to make him the top private farmland owner in America'. *'The richest of the rich are polluting the world and driving climate change, while the poorest of the poor suffer the greatest consequences, according to [new report published Monday](#) by [Oxfam International](#). The richest 1% of the global population have used two times as much carbon as the poorest 50% over last 25 years; non-profit's report says' The coronavirus pandemic has exacerbated inequality in almost every way (billionaires' wealth increased by \$3.9 trillion between March 18 and December 31, while the number of people living on*

less than \$5.50 a day may have increased to as many as 500 million in 2020, Oxfam says), and that extends to carbon consumption.

For instance, “worldwide sales of [private jets soared](#) when commercial travel was banned,” the Oxfam report says.

<https://www.oxfam.org/en/research/inequality-virus>

*‘The virus has exposed, fed off and increased existing inequalities of wealth, gender and race. Over two million people have died, and hundreds of millions of people are being forced into poverty while many of the richest – individuals and corporations – are thriving. Billionaire fortunes returned to their pre-pandemic highs in just nine months, while recovery for the world’s poorest people could take over a decade. The crisis has exposed our collective frailty and the inability of our deeply unequal economy to work for all. Yet it has also shown us the vital importance of government action to protect our health and livelihoods. Transformative policies that seemed unthinkable before the crisis have suddenly been shown to be possible. There can be no return to where we were before. Citizens and governments must act on the urgency to create a more equal and sustainable world’.*

[The data from the Credit Suisse Global Wealth Databook \(GWD\) and the Forbes Billionaire List](#) provide the best available tools to make it clear that inequality is extreme and pathological and getting worse every year.*

~

#### [How It's Gone from 62 to Six in One Year?](#)

*As of Feb. 17, the world's six richest individuals (all men) had \$412 billion. Tables 2-4 and 3-4 of the 2016 GWD reveal that the poorest five deciles of the world population own just 0.16 percent of the \$256 trillion in global wealth or \$410 billion. That latter figure is based on mid-2016 data, but since then the status of the bottom 50 percent has not improved and has in fact likely worsened, as both global debt and global inequality increased. From Forbes Billionaire List, the world's richest 500 individuals have \$4.73 trillion in wealth. [Tables 2-4 and 3-4 of the GWD](#) reveal that the poorest seven deciles of the world population own just 1.86 percent of the \$256 trillion in global wealth or \$4.76 trillion. That's more than two-thirds of all people on Earth. In U.S. the Forbes 400 own as much as 3/5 of the American People.*

*The world's 2,153 billionaires have more wealth than the 4.6 billion people who make up 60 percent of the planet's population, reveals a new report from Oxfam today ahead of the [World Economic Forum \(WEF\)](#) in Davos, Switzerland. (January 20, 2020) Oxfam's report, ['Time to Care'](#) shows enabling a wealthy elite to accumulate vast fortunes at the expense of ordinary people and particularly poorest women and girls: The 22 richest men in the world have more wealth than all the women in Africa. Women and girls put in 12.5 billion hours of unpaid care work each and every day - a contribution to the global economy of at least \$10.8 trillion a year, more than three times the size of the global tech industry. Getting the richest one percent to pay just 0.5 percent extra tax on their wealth over the next 10 years would equal the investment needed to create 117 million jobs in sectors such as elderly and childcare, education and health.*

*Women do more than three-quarters of all unpaid care work. They often have to work reduced hours or drop out of the workforce because of their care workload. Across the globe, 42 percent of women of working age cannot get jobs because they are responsible for all the caregiving, compared to just six percent of men.*

*Women also make up two-thirds of the paid 'care workforce'. Jobs such as nursery workers, domestic workers, and care assistants are often poorly paid, provide scant benefits, impose irregular hours, and can take a physical and emotional toll. The pressure on carers, both unpaid and paid, is set to grow in the coming decade as the global population grows and ages. An estimated 2.3 billion people will be in need of care by 2030 an increase of 200 million since 2015. Climate change could worsen the looming global care crisis, by 2025 up to 2.4 billion people will live in areas without enough water, and women and girls will have to walk even longer distances to fetch it... The report shows governments are massively under-taxing wealthiest individuals and corporations and failing to collect revenues that could help lift the responsibility of care from women and tackle poverty and inequality. At the same time, governments are underfunding vital public services and infrastructure that could help reduce women and girls' workload. For example, investments in water and sanitation, electricity, childcare, healthcare could free up women's time and improve their quality of life.*

Pinterest News: 'A person cured is the loss of a client'

'Vaccine whistleblower, Brandy Vaughan, was found dead last week, killed in her home. Brandy Vaughan, 47, was initially a pharmaceutical employee who sold Vioxx, a painkiller medication sold by the company Merck. It eventually came to light that Vioxx was found to double the risk of stroke and heart attacks in people. The company Merck, [knowingly continued to distribute the painkillers](#), knowing its prospective dangers. The medical journal Lancet estimates that [88,000 Americans had heart attacks from taking Vioxx, and 38,000 of them died](#). Merck, eventually had to settle the biggest pharma lawsuit in history, to the tune of [4.85 billion dollars](#) to thousands of people. After the Pharmaceutical industry's methodic profit-over-people campaign was realized, the Merck employee quit. She left the country, going to Europe saying, "I realized that just because something is on the market doesn't mean it's safe. Much of what we are told by the healthcare industry just simply isn't the truth." To fight back, she started a non profit, [Learn the Risk](#), to expose dangers of the Pharmaceutical drug industry, including vaccines and unnecessary medical treatments that have caused illness and death in countless people outside the Merck trials. She instead dedicated her life to giving people natural, safe, holistic healing options. Harassment got so bad, she recorded a 12 minute video detailing the home invasions and intimidation she was enduring, so that everyone could be aware of the pressure and danger she was in. But the harassment didn't stop, so she went on Facebook to write a public statement, detailing how if she's been killed, to know it's been done by the Pharmaceutical drug industry.

~

And just as she predicted, tragedy soon struck. On December 7th, 2020, Brandy Vaughan was found dead by her 9-year-old son. Anyone that's stood up against government profit knows how real surveillance, intimidation, imprisonment and death is to those that challenge the system.'

Brandy Vaughan > The post I wish I never had to write  
But given the certain number of sudden tragedies over the last few years  
I feel it's absolutely necessary to post the following facts.

1 I've NEVER had any thoughts of taking my own life, not once, ever. Even before I had my son.

2 I have a huge mission in this life. Even when they make it very difficult and scary.  
I would NEVER take my own life. Period.

3 My son means everything to me and I would never leave him. Period. I have sole custody  
and he needs me as much as I need him. I would never think to leave him for a second.

4 I have never been on an anti-depressant nor been diagnosed as depressed.  
Don't believe it if you ever hear anything like this.

5 I've NEVER taken a daily pharmaceutical drug And I haven't taken any pharmaceuticals in  
ten years. Nothing over the counter, nothing by prescription. In other words I'm not on anything  
that could kill me unexpectedly or suddenly. I've never done illegal drugs either, not even once.

6 There's no way anyone could get into my house, no robbers, no angry exes (which I don't have btw)  
no fanatical people – my house is like Fort Knox, unless it was someone super professional. It just  
wouldn't be possible for someone without highly special equipment and tactics. (remotely taking down  
my high-level security system, which they have done before unfortunately). But my place is also highly  
secured in a hard wired kinda way. So even if the power was out, most people could still never get in'

7 If something were to happen to me it's foul play and you know exactly who and why – given my work  
and my mission in this life. And I'm also NOT accident prone. And I got the highest health rate possible  
when I went through a battery of medical checks a couple of years ago for my health insurance policy'

Healthcare staff were promised a 2.1% pay rise, until the chancellor announced last week it would be as little as 1%, or 50 pence a day extra. When inflation is taken into account, it represents a pay cut.

#### **Money for weapons**

‘Currently around £56.1 billion of the NHS. annual budget goes on staffing costs. A 1% pay rise would cost approximately £561-million.

That’s almost the same amount Ministry of Defence (MOD) spent on missiles for its new fleet of F-35 Lightning fighter jets in January.

Britain faces strike action from exhausted healthcare workers angry at a “pitiful” 1% pay rise despite winning praise for treating

thousands of coronavirus patients. Their frustration comes as a new study shows the UK government has increased spending on military

to \$61.5-billion last year, up from \$54.8-billion in 2019.

The International Institute for Strategic Studies (IISS) said it means Britain now has the fourth-largest defence budget in the world, ahead

of Russia, France and Germany. ([www.dailymaverick.co.za](http://www.dailymaverick.co.za))

‘The pay rise of £3,300 will see MP’s in the houses of parliament receive a salary of £85,291 despite the coronavirus pandemic decimating the UK economy. MP’s pay rises are proposed by the

Independent Parliamentary Standards Authority (IPSA), and the body recommended the countries representatives receive a 4.1% rise’

According the Office of National Statistics (ONS), between March and August 2020, nearly 700,000 employed workers have lost their job with a vast number of self-employed people losing all their work

and their sole means of income. It is now expected that a further 500,000 jobs in the hospitality sector are at risk due to the continued

implementation of heightened local lockdowns and increased restrictions across vast areas of the UK. [www.euroweeklynews.com/](http://www.euroweeklynews.com/)

Mnar Muhawesh Adley, 29.3.2021. MintPress News

*'This week marks the six year anniversary of the US.-Saudi led war against Yemen the Middle East's poorest nation creating the world's worst humanitarian crisis. What's happening against the people of Yemen is genocide, where images of skeletal children have come to represent this war. This crises is so close to my heart as I personally dedicated 3 years of our coverage at MintPress to Yemen. I remember not being able to eat some days because I felt so guilty, knowing my brothers and sisters in Yemen were starving. I would wake up in the middle of the night with skeletal children images playing in my head. I'd look at my two boys and imagine the pain mothers would feel ~ knowing they couldn't feed their children. It affected me in more ways that I can explain in this post. For the last 6 years, Saudi Arabia has targeted Yemen's food and water supply, bombing water treatment facilities and used it's economic power at the UN and on the international stage to prevent humanitarian aid, fuel and basic supplies from entering the country. The Biden administration sparked a sense of hope around the world that the war on Yemen could finally be over. For those on the ground though, the bombs keep falling, food is scarce, hope is in short supply. But this war is not over. It's playing a larger role in the neoconservative-neoliberal war against Iran, which is why the media has used the Sunni-Shiite narrative to justify its economic and military arms support for Saudi Arabia to prevent a supposed expanding Iran in the region. As we've learned from previous conflicts, this is how narratives of war are drafted to justify the military industrial complex's profit from bloodshed in the Middle East. The resilience of the Yemeni people who have stood strong against the world's biggest and strongest militaries is symbolic in the greater resistance against Western Imperialism. There is no such thing as a humanitarian war, only wars for profit and for resources this is why we must hold our politicians accountable, whether Republican or Democrat, for their addiction to forever wars'.*

'The mind is a terrible master but a wonderful servant' Man  
must elevate himself by his own mind, not degrade himself.  
The mind is the friend of the conditioned soul and his enemy  
as well. (Bhagavad-gita 6.5). As you know living in India ~  
for me an essential difference with western thought is that we  
in the west are made to see the mind, thought, as the intrinsic  
arbiter (on the level of Religion, holy, pure quest) whereas in  
the east they see the mind as a barrier, a tool, a hindrance to  
human understanding. That seems like a contradiction but in  
my own personal experience this seems true, where I have suffered  
trying to understand things which I've finally, thankfully accepted.  
I will never understand by the capacity of my own mind, but that I  
may find some acceptance by not allowing my mind to have such  
ultimate power over my being. The argument of the mind is that ~  
I have given up which I am willing to accept to live in some sort of  
peace with the world & myself. I expect-accept that this relationship  
continues throughout one's life, this struggle to comprehend, to deal  
with things, freely, energetically, chaotic children, virus-pandemic!

'April 9 1898, Paul Robeson, singer, actor, American football player,  
communist and anti-colonialist was born in Princeton, New Jersey.  
The son of a previously-enslaved father who escaped a plantation,  
and a blind mother who died when he was six years old, Robeson  
learned 15 languages including Latin, ancient Greek and Swahili,  
and played in the National Football League while graduating from  
law school. He also became a revolutionary and was deeply involved  
with the struggle against fascism, actively supporting the fight against  
nationalist general Francisco Franco during the Spanish civil war...  
He played an active role supporting many workers' struggles, as well  
as the fight against racism and colonialism. After World War II, as  
cold war tensions escalated, he was attacked by the anti-communist  
programme of Senator Joseph McCarthy, blacklisted and had his  
passport revoked, which destroyed his career. This began a slide into  
depression and mental illness. Despite his hardship he kept his ideals'

is fragile and he is a suicide risk. All this after being in HM Belmarsh prison

21 months in solitary and locked down in the Ecuadorian embassy for 7 years.

Who's ultimately responsible for this inhuman torture, witnessed by the UN's

Special rapporteur on torture, Nils Melzer who said that, 'in 20 years of work

with victims of war, violence and political persecution I have never seen a

group of democratic states ganging up to deliberately isolate, demonise and

abuse a single individual for such a long time and with such little regard

for humanity dignity and the rule of law'

And now they've refused to give bail, No Mercy here, No Justice either!

Let's not forget that this decision is after 10 years of a witch hunt that the

UK/US/AUS/Swedish Governments have conducted relentlessly against

Julian Assange as a TRUTHER, working on behalf of the people of this Planet,

to let us know what crimes these inhuman criminals were conducting in the name

of the 'National Security' of the democratic, free world, when they are psychopaths!

They should have all be sent to the war crimes court not Assange who exposed them.

Yes it is a victory if Assange can recover from this Torture BUT these Governments are

shown to be the monstrous Beasts they are. In our name they've committed these heinous

acts and used this strategy each time to silence and destroy the Truth from being witnessed,

so we live under a system of fascism. Let us not easily forget now the focus is off this injustice

exactly who these Satanists are; demand their condemnation and that they're held responsible.

INSIGHTFUL

*Key elements of meditation are no speaking, no contact, and social distancing  
in order to help one go inside and develop concentration with less distraction ~  
this is a basis of Anapanna. With this concentration one can then move through  
the body (and mind) fixing one's attention on the sensations, realizing that they  
are always changing and that they're directly linked to one's subconscious stream.  
By observing this feeling and not reacting to it one allows karma's energetic seed ~  
to manifest and expel itself from the mind, thereby purifying, cleansing the conscious  
because we're not reacting and therefore giving the mind more energetic input, based  
on our evaluation, response to its interpretation, thought of this subconscious feeling.  
We realise that these feelings change without us having any power over them, that our  
Ego, our personality is in fact not in control of how life-force continues, so we can be free  
of assuming that reality, because these sensations are continuously changing beyond us ~  
and regardless of us, and it is us who by reacting to them with desire or aversion subjugates  
us and allows for the continuation of (dukkha) reality as a human being living in the world.  
An Unconscious world because we're subjected to our mind's dictates of ignorance in action~*

~

*This is a Perfect analogy for today, the unconscious actions of society forced to submit to  
Governments which have ulterior motives, are liars and are using a hoax global pandemic  
to make people fearful and thereby controlling, dictating to them that they must wear masks  
and be in lockdown, separated socially, inhumanely from each other' BUT IF this situation is  
used wisely and people begin the simple technique of Anapanna to learn concentration they can ~  
change a negative vibration to a conscious higher frequency leading to more realization of freedom.*

Fernández Anaya quickly caught up with him, but instead of exploiting Mutai's mistake to speed past and claim an unlikely victory, he stayed behind and, using gestures, guided the Kenyan to the line and let him cross first. 'Where there is the option of limited government, true free markets, individual liberty, the value of life, freedom of speech, private property rights, the right to self defense, the right to self determination, freedom of religion, and the non-aggression principle (we won't harm you unless you try to harm us), people thrive.

None of these ideals can exist in a globalist world because globalism is at it's core the pursuit of a fully centralized tyranny. The k0v1d disease has been a letdown for the globalists, with a tiny death rate of around 0.026% outside of nursing homes. Meaning, 99.9% of the population has nothing to worry about. Millions of people are becoming savvy to the situation and are refusing to comply with mandates over a virus that is a non-threat. Worry more about asteroids falling on your head! The fact remains that 40% of deaths have been in nursing homes among patients with preexisting illnesses, the death rate outside of these facilities is minimal, the mask mandates have been proven completely ineffective and the states that have remained open and removed mask mandates have FALLING death and infection rates when compared to states that are enforcing lockdowns.'

PATENTLY WRONG

'In 1923 Canadian scientists Frederick Banting and Charles Best won the Nobel Prize for the discovery of Insulin. They decided to give away the patent for free as they wanted insulin to be available to diabetics at no charge. Since then drug companies have monopolized the insulin market and charge diabetics \$500 per month to survive'

**‘Four dimensions of narcissism as a personality variable have been delineated: leadership/authority, superiority/arrogance, self-absorption/self-admiration, and exploitativeness/entitlement’** **Narcissistic personality disorder (NPD)** is a [personality disorder](#) characterized by a long-term pattern of [exaggerated feelings of self-importance](#), an excessive craving for [admiration](#), and struggles with [empathy](#).<sup>[2][3]</sup> People with NPD often spend much time daydreaming about achieving [power](#) and success, and the perceived injustice of failing to do so. People with the diagnosis in recent years have spoken out about its stigma in media, and possible links to abusive situations and [childhood trauma](#). Such narcissistic behavior typically begins by early adulthood, and occurs across a broad range of situations

~

The causes of narcissistic personality disorder are unknown, but theorized to be linked to certain types of traumas. The condition of NPD is included in the [cluster B personality disorders](#) in the [Diagnostic and Statistical Manual of Mental Disorders](#) (DSM). A diagnosis of NPD is made a healthcare professional interviewing the person in question. The condition of NPD should be differentiated from [mania](#) and [substance use disorder](#)

~

Treatments for narcissistic personality disorder have not been well studied. [Therapy](#) is difficult, because people with NPD usually do not consider their own issues as symptoms, despite [mental distress](#). People with NPD may have other comorbid psychiatric conditions as well, making it more difficult to identify the symptoms. About one percent of people are believed to be affected with NPD at some point in their lives. It occurs more often in men than women, and typically affects younger as opposed to older people. The [narcissistic personality](#) was first described by the psychoanalyst [Robert Waelder](#), in 1925. The term narcissistic personality disorder (NPD) was coined by [Heinz Kohut](#) in 1968. ~ Wikipedia.

Under the pretext of a 'health point of view', there will be a vaccine through which the human body will be treated as soon as possible directly at birth, so that the human being cannot develop the thought of the existence of the soul and of the Spirit.*

*Materialistic doctors will be entrusted with the task of removing the soul from humanity. Like today, people are vaccinated against this disease or other disease, so in the future, children will be vaccinated with a substance that can be produced precisely in such a way that people, through this vaccination, will be immune to the 'madness' of spiritual life. They will be extremely clever, but he would not develop CONSCIENCE and that is the real goal of some materialistic circles. With such a vaccine, you can easily release the etheric body from the physical body. Once the etheric body is detached, the relationship between the universe and the etheric body would become extremely unstable and man would become an automaton because the physical body of man must be connected on this earth by the spiritual will. Thus, the vaccine becomes a kind of arymanic force; man will no longer be able to get rid of a deep materialistic feeling. It becomes materialistic from the constitution and cannot rise to the spiritual.'*

*(Hacking Life's Software) ~ Undercurrent of Life Stream*

*'In Buddhist psychology the process of the changing mind is manifested in two levels or streams. The subconscious stream 'Bhavanga-citta' and the Conscious stream 'Vithi-citta' ~ Each one merges into the other. The subconscious stream is the hidden repository of all the impressions and memories of thoughts that pass through the conscious mind. All experiences and tendencies are stored up there, but they exert an influence over the conscious mind without it being aware of the source of this influence. These two streams of mind being conditioned by each other. The state of the active conscious mind and awareness is generally present during the day when one is awake. It is conscious of all impacts and impressions continually received from outside, through the 5 senses or of sensations received from within by way of ideas or thoughts, or recollections of former thoughts. When this conscious stream which is constantly receiving sensation ~ from within or without subsides into inactivity, as for instance during sleep, the other stream, the sub-conscious (Bhavanga ~ citta) manifests ~ flowing like an undisturbed stream so long as the conscious stream does not arise to disturb it through the sense channels. When awake every time an arisen thought of the conscious mind subsides, and before the next thought can arise, within that infinitesimally minute fraction of time, the sub-conscious stream intervenes. Then when the next thought of the conscious mind level arises the sub-conscious stream ~ subsides into inactivity. Since innumerable thoughts arise and fall one after another during the day, so then are there innumerable momentary interruptions to the flow of the sub-conscious stream during the day. The sub-conscious is referred to as a state of subliminal activity viz. an activity that takes place below the threshold of the conscious mind, an activity of which therefore, there is no awareness on the conscious mind. The conscious stream holds only one thought or idea at a time whereas the sub-conscious stream holds all the impressions, of all the thoughts ideas and experiences*

that enter and leave the conscious mind. This sub-conscious life stream allows us to have a memory, conditioning our thinking and action. The Bhavanga is the 'bhava'(existence) 'anga' (factor). 'Bhavanga-citta' is the indispensable factor or basis of existence. The factor of life by means of which the flow of existence or being is maintained without a break. The continuing basis or undercurrent of life, the stream of existence keeping life going. This stream of being is an indispensable condition of individual life. It is comparable to the current of a river when it flows calmly on, unhindered by any obstacle, and when that current is opposed by any thought from the world within or perturbed by tributary streams of the senses from the world without, then thoughts in the conscious mind stream arise. There is a juxtaposition of momentary states of consciousness, subliminal and supra ~ subliminal throughout a lifetime.

From 'Rebirth Explained' by V. Gunaratna.

Buddhist Publication Society. Kandy, Sri Lanka. 1980.

This essential conscious ~ sub-conscious life streaming is felt as a flow of sensations on the body/mind and Your equanimous ~ awareness of this ever-changing (anicca) flow of sensations ~ 'Sampaggana Satimo' is what Vipassana meditation (taught by S. N. Goenka, (<https://www.dhamma.org>) practices to make us realise our inner, true being ~ 'going with the flow, freedom, consciousness, transcendence, God realization, beyond illusions, conditionings, ignorance, distractions, manipulations, ego trips, Maya, energetic fields, Cosmic realities, realization; is being now

\*\*

Vedanā Within This Very Body \* S. N. Goenka. (\* my words)

The entire universe exists within this fathom-long body ~

Within this very body turns the wheel, the process of becoming

Within this body is the cause that sets in motion wheel of becoming.

Within this body is found freedom from turning of wheel of becoming

Within this body is found the way to achieve freedom from the wheel

of becoming. For this reason, investigation of the body is of paramount importance for a meditator whose goal is liberation.

Unless one acquires a correct understanding of the immediate physical reality of oneself ~ the reality that is the basis of one's existence ~ the wheel of becoming will continue to rotate within.

Proper understanding develops, little by little the turning of the wheel is arrested until at last one is liberated from the bondage of becoming.

The five physical senses and the mind are all based on the body ~

Through these six doors come all our contacts with the world outside.

The universe exists for us only when it actually enters into contact ~ with any one of these doors (\*not remote algorithm controlled DNA).

A visible form, for example, exists for us only when it comes into ~

*contact with the eyes, otherwise it has no actual existence for us... Similarly, to exist for us, a sound must come into contact with the ears, an odour with the nose, a taste with the tongue, a tangible object with the bodily structure, a thought or fantasy with the mind. Otherwise for us they have no real existence. The entire universe ~ manifests through these six doors that are based within the physical structure, 'the entire universe exists within this fathom-long body ~ To investigate the reality of oneself in a scientific way, a meditator must lay aside all beliefs, philosophies, imaginations, and dogmas. In order to arrive at the ultimate truth of oneself, it is necessary to work only with the truth, and to accept as true only what one has experienced for oneself. If one explores truth in this way, all nature's mysteries will reveal themselves. The meditator begins encountering gross, solidified, apparent truths, from that level penetrates towards subtler truths. At last one reaches a stage in which all delusions are overthrown and the ultimate reality is laid bare. By experience the meditator realizes that from the contact of eyes and visible form, eye consciousness arises ~ the mental cognition of the fact that contact has occurred. The meditator also realizes that the contact produces a vibration, a sensation that spreads throughout the body, as striking a bronze vessel at one point will cause the entire vessel to vibrate ~ Once the contact has been cognised, the process of perception occurs: the visible form is recognized as, for example, a man or a woman, black or white, beautiful or ugly. Not only is it identified, but it is also evaluated as good or bad, positive or negative, welcome or ~ unwelcome contact. According to the evaluation given to the object, the vibration that arose at the moment of contact now takes on a colouration. If the object is evaluated as good, the sensation is felt as pleasant, and if it is evaluated as bad, the sensation is unpleasant. Finally, if the sensation is experienced as pleasant, the mind reacts with craving, and if it is unpleasant, the mind reacts with aversion. Thus, a meditator clearly understands how consciousness, perception, sensation, and reaction ~ the four segments of the mind ~ actually function. Craving intensifies pleasant sensation, and pleasant sensation intensifies craving. Aversion strengthens unpleasant sensation, and unpleasant sensation reinforces aversion. One who meditates properly will understand how from the base of bodily ~ sensations starts a vicious cycle that continues turning with gathering momentum. This is the wheel of becoming, of misery. The same process follows when contact occurs between the ear and sound, nose and odour, tongue and taste, body and tangible object, mind and thought. In this way the wheel of becoming continues ~ rotating, impelled by craving and aversion. By observing this process objectively without any preconceptions, a meditator who practises ardently attains freedom from craving and aversion, and stops the turning of the wheel of becoming ~ Let us learn to observe objectively the process that arises from bodily sensations to achieve liberation ~*

*We show here how over centuries imperialists, cabals, cartels, syndicates, Conglomerations, mafias, created a pyramid of unaccountable power.*  
*A 1% in control of everything and with no feelings, empathy for us ~*  
*We are expendable and totally exploitable as history has fully shown.*  
*Wars have been happening all the time but what can a humanist do?*  
*Who knows the truth? No one knows what's been discovered, the new -latest invention, rarest element which can change the whole of reality*  
*Who knows what DARPA, or Silicon Valley, the CIA, US military, Oligarchs, monarchists, kleptocrats, Plutocrats, despots, MIC tyrants, Neuralink NASA, Gene-editing, Pandemic simulation, Think Tanks have known and designed for years, and their Motives to be in Power?*

*Human Rights, but plenty of Earth's natural resources to squander, on murder and expropriation; look at Saudi's Genocide in Yemen, their neighbor, look at all the wars happening and for what? Profit! The 4<sup>th</sup> Industrial Revolution, monopolies, patents, the Great Reset. Now look at the state of the Planet since the last 50 years, total loss of life-forms, pollution, the extermination of all biospheres; Ecocide! See, 'Corporation' they analyse and conclude that a Corporation has the same personality as a 'Psychopath'; they rule the Planet and us... Time for a change as we see through Psy-ops of the k0v1d Pandemic. There is no Democracy and these Forces existing are there to enslave. See the INEQUALITY today where 10 billionaires have the same wealth as the poorest 50% of the Planet's population, who are only becoming poorer while the richest profit obscenely from the EARTH which has gifted everything to us for free, to have conscious gratitude. What do we do? Nothing, Amazon.org is more valuable than Amazon ~ Earth's most powerful force of life, but only to be raped by global business. This is the choice we have as we go into the future. Being Conscious now of what is Vital to the sustainability of All organic Life on this Planet ~ And the failure of so many Governments during this 'Covid' is incredible with the lack of fundamental rights for constituents, or 'subjects of the realm', to have all the truth, instead of manipulation and coercion, to lock-down whole populations on spurious, fake data, information... grossly inaccurate computer modelling and main media propaganda! People's livelihoods have been destroyed and a mass shift of wealth to the richest has happened, just as in the financial crash of 2008 caused by corrupt and criminal bankers (see, Inside Story), it's an old pattern of fraud and theft, \$ transfer to the elites, so more power to command. Did the Japanese Government do anything to arraign the company responsible for the Fukushima 'natural disaster' radiating an Ocean? Through innovations in High tech. we are now on the edge of a track and trace, surveillance, social credit, QR codes, digital money-matrix, so everything is controlled by an automatic central system, panopticon.*

~

*It's the NWO. Globalist, fascist, military state's technocratic agenda. People have been treated like sheep and kept from knowing the truth. Those in authority are condemned for their failure to protect the lives, rights of people and Nature but their policies made them all very rich. They've no morality, honour, respect, empathy only narcissistic ego. They've No Spirit, they sold their soul to the satanic luciferian cabal. When you look at the extreme inequalities in this world what would you call it, if you were even bothered to empathise and think critically. In High-tech. they trust not in God, they have no sense of a spiritual or holist-integration, it's just the success of themselves and no one else. There are those who want a society of no spiritualism or naturalism. Everything genetically modified, cloned algorithms in control of you! The fear is they will hack into the human sub-conscious, 'Bhavanga-citta' with their nanodust-implants and control our Conscious stream*

as described [here](#) to produce a dystopian nightmare like now.  
Unless we follow the example of wise, honest people who thoroughly understand this evil like SN Goenka, and do something to change it.  
There is still hope as the Planet becomes more conscious of their aims.

\*\*\*

Rat race of Money \* Craving minds or People in tune with Nature  
Not commercial, just giving, wanting to share it with the poorest of the poor. Not discrimination because one is rich or poor, serving even the 'untouchables'. India, the essence of dhamma is lost as no practice only spiritual theory. Meditate, dhamma will come, effecting others with blessings of empathy, 'Metta' Loving Kindness, equality. Understanding the mind's delusions, its craving, desires & aversions. Mindfulness will develop in our lives, we will recognize the insanities. This is our challenge not taking incessantly from Mother Nature ~ filling the pockets of the greedy 1% and reducing the rest of us to ruin. Awareness by honest people like Goenkaji, and the whistleblowers offer hope to the rest of humanity that the balance will be beneficial for our spiritual, and our shared natural environment

\*

Want to be a Beast or an Angel? The choice is Yours now  
Through this spectrum of higher consciousness existing certain people have been able to perceive, achieve it ~  
Giving loving kindness, **metta**, music to my ears.  
It is living the truth not the obvious deception...  
Case is Assange Vs Government and its factions for their own reasons, criminal and corruption, paranoia kept under cover of National security.  
Hiding evidence of their murdering, plunder, rape pillage, when the crown turned up in our village!  
Jesus preaching love thy neighbour, turn your cheek and the meek shall inherit the Earth, nailed to a cross!  
'I have to be honest, I can't go along with their program'  
Mahatma Gandhi, satyagraha, share the goods not spoils of war, destruction, pain and suffering. Why the fuck do that?  
Took a bullet just like Dr. ML King fighting for your civil rights.  
Which insane maniac would want to do that? To take another life?  
Live simply, be in tune with our mother Earth, why poison her to death?  
Be thoughtful, caring, have gratitude, be gracious all good qualities of mind.  
Don't be socially engineered by egotistic greedy sociopaths or their clone machines.  
Tell those sycophantic, petty tyrant bureaucrats, colonialism's androids to fuck off!  
And take their fears, propaganda, brainwashing, lies, deceit, greed, psychopathy, their virus, experimental gene-therapies back to their laboratory and fck themselves!  
Or Obeying the commands of Emperor Caesar, living in his Palace with his guard,  
Or enjoying Freedom, responding consciously to life, nature, highest vibrations ~ possible, not to be treated as their beasts of burden but with human qualities, and for that it's time to have true equality not these obscene levels of wealth and power.  
We need a holistic environment, organic not synthetic for our divine spirit to thrive.

*ABOUT SUNNY JETSUN*

~

*Inspired by the sixties Sunny started traveling the world in 1970 ~ His spiritual journey on the hippie trail to India took him through London, Amsterdam, Paris, Vancouver, San Francisco, Los Angeles, Sidney and Kathmandu to Varanasi. His arrival on the subcontinent was the beginning of writing autobiographical verses capturing his travel experiences, encounters with remarkable people and his quest for self-realization. Combining experimentation with drugs, sex, rock & roll, art, meditation, Love and life in particular. Sunny started to open up to a multi-dimensional Universe. He lived the mantra ~ “Turn on, tune in, drop out” realising mind’s illusions, inspired by deeper feelings of holistic nature, empathy \* energy \* Space ~*

~

*For five decades Sunny has written and published 50 books of poetry, created over one hundred paintings, traveled the World, and considers his most beautiful masterpiece to be his daughter. He has spent the past twenty years in Goa, India inspired by ~ the freedom to experience and idealism of human consciousness.*

*Reiner Fuellmich* is getting that support from the thousands of lawyers worldwide to bring the Covid19 scandal set up in Davos to the tribunal. On the initiative of a group of German lawyers, a Covid-19 commission of inquiry was set up with the aim of bringing collective action on an international level, on the *basis* of Anglo-Saxon *law*.

~

*Covid-19 scandal has never been a health issue - Court sessions can be found here*

The hearings of, among others, hundreds of scientists, doctors, economists and lawyers of international repute conducted since October 7, 2020 by the Berlin Commission of Inquiry into the Covid-19 affair have now demonstrated with a probability approaching 100% certainty that the Covid-19 scandal was never a health issue - Dr. Fuellmich on Feb. 15, 2020, "Rather, it was a matter of strengthening power, illegally obtained by criminal methods of the corrupt 'Davos clique', by transferring the wealth of the people to the members of Davos on the backs of small, and especially medium-sized businesses, among others." 'The committee's conclusion is that Covid-19 is being used as a diversionary tactic by business and political 'elites' with the goal of shifting market shares and wealth from small, medium-sized businesses to global platforms such as Amazon, Google, Uber, and other big tech and multinational *corporations*.' "We have seen what has been confirmed time and time again: the dangerousness of the virus is about the same as that of seasonal flu, regardless of whether it is a new virus or whether we are simply dealing with an influenza renamed Covid-19 pandemic."

## **CUI BONO?**

*Wikipedia: in English 'to whom is it a benefit?', is a Latin phrase about identifying crime suspects. It expresses the view that crimes... are often committed to benefit their perpetrators, especially financially. Which party benefits may not be obvious, and there may be a scapegoat'.*

~

*Weaponised Capitalism, who looks at cognitive functions with a clear mind? And who are these listed at the 2020 WEF, 'the elite of the New World Order' This is their 50<sup>th</sup> anniversary and in those 50 years we have seen the loss of 60% of the Planet's species and the extreme inequality, whereby 6 billionaires have more wealth than 50% of Earth's poorest. Their Covid pandemic moved \$3 trillion from the world's economy to them. Is this what you want to accept? The immoral destruction of our Planet, and the enslavement of humankind... In a high tech matrix of their design, of surveillance, control and exploitation, with NO HUMAN FEELINGS of EMPATHY as this is OBVIOUSLY WHAT THEY HAVE CREATED AND WISH TO CONTINUE ~ WITH THEIR POWER GRAB OVER US, BY LIES AND FORCE. The NWO. Cartel working towards this and WE ARE LOKED DOWN! Recognise them, these categories of Sociopaths whose motivation is to Profit. Only more and more greed, witness the world today. (See, 'Corporation' film). It's time to take back our sovereign human rights as children of God, not of them. Returning to FREEDOM and RESPECT for ALL LIFE'S RIGHT TO EXIST. Deny these megalomaniacs with a Trans-human, inhuman, unnatural AGENDA. They are the Banking, Political, Media, Pharmaceutical, Industrial, Military Cartel.*

*They want to brainwash us all to accept their propaganda on how we should live ~  
Theirs is no Social, Spiritual, Conscious humanity, it's to dehumanize, desensitize us.  
Do you want to follow, be led in their AI-direction or be a free spirit of human feelings?  
And see what they have done to those who tell the truth, they are locked away in solitary.  
And we have to beg for Freedom of Information from these Paranoid, criminal dictators...  
Under the guise of National Security, Official Secrets Acts they redact their heinous crimes.  
Democracy has been collaterally murdered, the genocide of the will of the people for profits.  
Let's witness who these unscrupulous 'people' are, they're elites of the global World Order.  
These Top Levels are not Democrats they come from despotic, tyrannical systems of power.  
Other levels are obedient functionaries who have sold their souls to be ego-megalomaniacs'  
They predominantly represent financial, corporate hierarchies which plunder the Earth ~  
They do not represent humanity or the natural world, their program is to divide-conquer.  
They have No Consciousness of empathy, loving kindness, sympathetic joy, equanimity ~*

<https://qz.com/1787763/the-list-of-delegates-to-the-2020-world-economic-forum-in-davos/>

By [David Yanofsky](#) Editor of code, visuals, and data. January 21, 2020

'From Goldman Sachs bankers to United Nations bureaucrats, delegates have descended on Davos, Switzerland, for the 2020 annual meeting of the World Economic Forum (WEF).

The conference, now in its 50th year, is a perennial draw for the world's most powerful people to discuss [the most pressing issues](#) facing the global economy - [or at least make them feel](#) that's [what they're doing](#). The WEF has publicized the attendees to varying degrees in recent years. At times it has kept the list private, released it in full, or released it while excluding certain groups of people.

This year, the WEF publicly released its list without names of participants and cited the European data-privacy law known as GDPR as the reason for doing so. That list included person-by-person demographic information, not linked to any identifiable information. A separate list with names is provided to press in attendance; it includes instructions not to release the names of attendees.

Information about this year's attendees was submitted to us anonymously via [our Secure Drop portal](#). By name, it matched the 2,784-person list made available to journalists. However, the information we received contains more detail on attendees than Quartz has ever seen and reveals, in ways never before disclosed, how the WEF [catalogs and categorizes](#) the world's powerful people.

We've included two parts of that rubric here, the 1-to-7 categorization of each delegate based on title and affiliation, and a short description of what type of position they currently hold. **The World Economic Forum** declined to comment on the list or the purpose of the categorization.'

\*\*\*\*\*

**The Full list of all attendees of the WEF summit, 2020, DAVOS, is available at the end of this book and the keynote speech by Prince Charles put in context of using Nature as a more productive resource and with the letter of Chief Seattle who described a true relationship to Nature, and those who want to exploit it to the Max. It is clear from the way humanity has been directed and controlled by the Global Powers, Colonialism, Colonization, EMPIRE which is a mind-set of these 'elites' as seen today in the WEFForum. See where their motives and psychosis have led us especially over the last 50 years when Prince Charles was being so aware riding in his golden carriages, in Palaces, as do all these oligarchs! I am not against economic progress but these are focused on progress as Capitalist domination, Slavery. IT HAS TO BE IN CONSCIOUS HARMONY WITH MOTHER NATURE, PLANET EARTH ~ Here's not one animal mentioned or tree, not a butterfly, insect, bird or a bee, neither fish from any sea!**

Prince Charles, this is a Practical lesson of a true sacrifice for the people's rights and Planet Earth not words.

#### Transferred from Jail

'She died like heroes do, sacrificing her own life for everyone's rights'  
After the 238th day of a hunger strike with which she called for a fair trial  
in a country, Turkey, where fairness and justice are non-existent concepts.  
Especially if you're a woman. Especially if you're a human rights attorney.  
Especially if you don't backdown in front of a power that would like to shut  
your mouth. She died like this, Ebru Timtik, of hunger and injustice.  
Her heart stopped simply because he had nothing left to give ~ 27.8.2020.  
She died defending her right to a fair trial, after being sentenced to 13 years,  
along with 18 other lawyers like her, detained on charges of terrorism,  
only for defending other people accused of the same crime'.

'May 1, is International Workers' Day! It commemorates the sentencing to death  
of seven anarchist workers in Chicago who were wrongly convicted for throwing  
a bomb at police who attacked a strike demonstration in May 1886.

80,000 workers in Chicago had walked out on May 1 demanding a maximum  
8 hour working day, alongside over 200,000 other workers across the US.

Employers and the government were determined to crush the movement.'

#### **DID YOU HAVE ANY CHOICE?**

We need revolutionary action to save the planet: full transcript of Prince Charles' Davos speech, 1 23, 2020.  
'Ladies and gentlemen, I am most touched that Professor Klaus Schwab should have invited me to be with  
you as we mark the 50th anniversary of the World Economic Forum and its mission to "improve the state  
of the world". It is this mission, and the urgent need to shape the next 50 years, that has inspired me to  
be with you here today, after an absence of 30 years. 'I hate to tell you we are in the midst of a crisis  
that is now, I hope, well understood. Global warming, climate change, and the devastating loss of  
biodiversity are the greatest threats humanity has ever faced – and one largely of our own creation.  
I have dedicated much of my life to the restoration of harmony between humanity, nature and the  
environment, and to the encouragement of corporate social and environmental responsibility.  
Quite frankly, it has been a bit of an uphill struggle. But, now, it is time to take it to the next level.

*In order to secure our future and to prosper, we need to evolve our economic model. Having been engaged in these issues since I suppose 1968, when I made my first speech on the environment, and having talked to countless experts across the globe over those decades, I have come to realise that it is not a lack of capital that is holding us back, but rather the way in which we deploy it. Therefore, to move forward, we need nothing short of a paradigm shift, one that inspires action at revolutionary levels and pace. With this in mind, I am delighted to be launching a Sustainable Markets Initiative, with the generous support of the World Economic Forum. For me, Sustainable Markets offer a new systems-level framework which ground markets in a higher purpose mission, in other words, putting people and planet at the heart of global value creation. Sustainable markets generate long-term value through the balance of natural, social, human and financial capital. Systems-level change within sustainable markets is driven by consumer and investor demand, access to sustainable alternatives and an enhanced partnership between the public, private and philanthropic sectors. Sustainable markets can also inspire the technology, innovation and scale that we so urgently need. The past decade has shown us just how quickly industry transformation can happen when you reimagine and re-engineer the business model – **we need only look to mobile technology, electric vehicles, the space industry, e-commerce and online streaming for inspiration. Looking forward, new employment opportunities, entire new industries and markets rooted in sustainability are within our grasp, with the potential for unprecedented economic growth.** Changing our current trajectory will require bold and imaginative action, together with determination and decisive leadership. We all know the problem, and increasingly we agree on the direction. 2020 is the time for solutions and practical action. With our SDG [Sustainable Development Goals] and Paris commitments in mind and the good news is that they are well within our reach if, ladies and gentlemen, we all pull together in a coordinated global initiative to tackle the greatest global threat I would like to outline 10 practical actions that will drive forward the sustainable markets approach.*

~

*First of all: shifting our default setting to “sustainable”. For sustainable markets this means everyone in a leadership role putting genuine sustainability at the centre of our business models, our analysis, our decisions and our actions. In other words, put simply, we need to put nature, and the protection of nature’s capital from which we draw an annual return at the heart of how we operate. It also means further defining and developing the discipline and framework of sustainable markets and sustainable industries.*

~

*Second: outlining responsible transition pathways to decarbonise and move to net zero. It is time for businesses, industries and countries alike to design and implement how they will decarbonise and transition to net zero. Moving together, with clear roadmaps, will create efficiencies and economies of scale that will allow us to leapfrog our collective progress and accelerate our transition. A little competition in this area could go a long way.*

~

*Third: reimagining industries through the lens of sustainable markets. Using a sustainable markets framework, we have an incredible opportunity to create entirely new sustainable industries, products, services and supply chains, **based on a circular bioeconomy**, while in parallel helping to transition our existing systems. To do this we must look at our markets using a business model approach to revenue generation and system operations.*

~

*Fourth: identifying game-changers and barriers to transition. We need to identify, show case and invest in the game-changing technologies and solutions that are emerging around the world.*

To accelerate, we must also identify the barriers to progress, be it policy, regulation, infrastructure, investment or the wider enabling environment. Often, I have found, it is simply about bringing the right people together to help lift those roadblocks out of the way. This convening role is, I hope, at least one practical contribution my Sustainable Markets Initiative can make. Because it is only by seeking out these game-changers and barriers that we will be able to make tangible progress.

~

Fifth: reversing perverse subsidies and improving incentives for sustainable alternatives. To achieve scale within sustainable markets we must not be afraid to adapt our long-standing incentive structures if we are to reap the benefits afforded by a more sustainable world. Re-orientating economic subsidies, financial incentive and regulations can have a dramatic and **transformative effect on our market systems**. It is time to level the playing field and to think about how we properly deploy taxes policies and regulation in a way that catalyses sustainable markets. For instance, for many years I've tried to encourage the adoption of the "polluter pays" principle in order to provide the necessary incentives. Public policy, therefore, has a critical role to play.

~

Sixth: investing in STEM, innovation and R and D [research and development]. Whether it is **AI** (where that does not seek to challenge or replace unique human characteristics and intuition), or indeed nuclear fusion, 3D printing, energy storage, electric transportation, carbon capture, renewables or biotech. We are on the verge of catalytic breakthroughs that will alter our view of what is possible – **and profitable** - within the framework of a sustainable future. To move forward, we must acknowledge that **sustainability and profitability are no longer mutually exclusive**. Effective solutions must ensure that sustainable technologies and alternatives are competitively priced.

~

Seventh: investing in **nature as the true engine of our economy**. Beyond major innovations and technologies, we must also look to invest in nature-based solutions in sectors like agriculture, forestry and fisheries – indeed, for all the resources that we take from the Earth. **Nature's contribution to the global economy is estimated to be worth more than \$125 trillion annually** – greater than the entire world's annual GDP, estimated at \$85.91 trillion in 2018. Building conservation and nature-based solutions into our asset base and supply chains can, therefore, offer significant economic growth opportunities for countries and businesses alike – including in areas such as the circular bioeconomy, ecotourism and green public infrastructure. If, ladies and gentlemen, **we valued our natural capital properly** (as I have been trying to say for quite a long time), our national and individual balance sheets might look very different indeed!

~

Eighth: adopting common metrics and standards. An increasing number of corporations are adopting ESG [environment, social and governance] methodologies and highlighting their SDG-aligned investments. However, it is time to move to unified metrics and global standards. People want to trust that the goods and services they buy are socially, environmentally and ethically produced. Through new technologies we have the ability to tag, track and trace supply chains in unprecedented ways – so it is time to make this level of supply chain transparency the norm.

~

Ninth: making the sustainable options the **trusted** and attainable options for consumers. With consumers controlling an estimated 60 per cent of global GDP, people around the world have the power to drive the transformation to sustainable markets. Yet, we cannot expect consumers to make sustainable choices if these choices are not clearly laid before them. As consumers increasingly demand sustainable products, they deserve to be told more about product lifecycles, supply chains and production methods. For a transition to take place, being socially and environmentally conscious cannot only be for those who can afford it. If all the true costs are taken into account, being socially and environmentally

responsible should be the least expensive option because it leaves the smallest footprint behind. We must communicate better with consumers about the sustainability of the goods, services and investments we offer.

~

Tenth: connecting investments to investables using platforms that can rapidly scale solutions. On every pressing issue we face, there are solutions that are not just available, but increasingly cost effective. At the same time there are trillions of dollars in sovereign wealth funds, pension funds, insurance, and **asset portfolios looking for investible and sustainable projects with good long-term value** and rates of return. It is time to align sustainable solutions with funding in a way that can transform the market place. This requires not only showcasing high potential investments, but that we reimagine financial analysis, structuring and models of return.

~

Now if we all accept that a profitable, yet sustainable, future is the desired end state, the questions we must ask are: How quickly can we get there and who are the leaders who will drive us forward? I submit that we are, in fact, far further ahead than we might think, making it critical that we leverage the vital work already underway. I would therefore like to highlight just a few examples to demonstrate that in nearly every industry we are seeing progress that we can build on. To start with, despite great efforts over the past 35 years, I have found that we could never convince financial and capital markets of the overwhelming need to invest in ways that truly benefit people and planet. Yet, in the last two or three years, we have seen a dramatic increase in sustainable investing. Investment managers frequently tell me that the demand for these investments far outstrip supply. At the same time, returns on sustainable investments are increasingly out-performing traditional portfolios.

In the financial sector, many central banks and financial institutions have committed to integrating climate risk into stress-testing, supervision and disclosure. With this progress there are now growing calls from financial institutions and companies alike to make disclosure mandatory.

In aviation, there are opportunities to develop commercially viable, hydrogen-powered and electric aircraft within the decade. In the interim, many in the industry are ready to adopt Sustainable Aviation Fuel made from waste material that can reduce carbon emissions - starting today.

After all, ladies and gentlemen, do we want to go down in history as the people who did nothing to bring the world back from the brink in time to restore the balance when we could have done? I don't want to.

In shipping, the manufacturers of ship engines are proposing it may take two to three years to build engines that run on green ammonia and methanol made from solar and wind power. The ships can start operations in the middle of the decade and become the norm around 2030. This hasn't all been certified and tested, but if the industry and the regulators make a real effort, we can make it work – creating a real tipping point.

In renewable energy, we're witnessing breakthroughs in the cost of solar that have potential to revolutionise almost every industry. We're rapidly approaching a time when renewable energy will be an order of magnitude cheaper than fossil fuels. In carbon capture and storage, there are growing numbers of initiatives that might just buy us vital time as we make our transition to sustainable markets and a net zero economy.

**In forestry, ladies and gentlemen, we can now transform wood, the most versatile natural material on the planet, into a new generation of wood-based products capable of offering alternatives to plastics, chemicals, textiles, transport and construction. Increasingly, we are seeing that the bioeconomy has the potential to ignite new industries and fuel sustainable markets – thus providing, at last, the economic incentive to value the vastly important eco-system services provided by the immense biodiversity and carbon-capture potential of restored and expanded forests, along with huge opportunities in integrated agro-forestry systems. When the right sustainable goods and services are developed, proved and affordable, the choice to adopt them will become obvious. Truly to seize these opportunities, we need to visualise the future and have the confidence to invest in it. If there is one critical lesson we have to learn from this crisis it is that nature,**

*ladies and gentlemen, is not a separate asset class. Nature is in fact, the life blood of our financial markets and, as such, we must – rapidly – re-align our own economy to mimic nature’s economy and work in harmony with it.*

*After nearly 50 years of **trying to champion this cause**, I cannot help but feel that, finally, we are ready to change our trajectory. For my part, I have made Sustainable Markets my priority for 2020 and actually beyond – for however long it takes. I have instructed my teams and my organisations similarly to align with this effort – and I expect them to contribute. With the stakes this high, I would challenge you to do the same. And, critically, we must foster innovation - and here, if you will allow me, I would like to acknowledge the new **Earthshot** initiative of my son, The Duke of Cambridge, which seems to me to extol the sort of horizon-lifting approach we need in order to give us hope.*

*Beginning here at Davos, and throughout the year – and in order to identify game-changers, investments and barriers to transition - I will be convening a broad range of industry and issue roundtables including, but not limited to: aviation; water; carbon capture and storage; shipping; forestry; plastics; financing; digital technology; the bioeconomy; nature-based solutions; renewable energy; batteries, storage and electric vehicles; fisheries; integrated healthcare; cement; steel; traceability and labelling; and agriculture – at the end of which I shall probably be dead. So ladies and gentlemen, as we look to design and create sustainable markets and industries, these roundtables will bring together system innovators, investors and decision-makers to start designing and charting the course.*

*I believe profoundly in the critical importance, at this juncture, of forming an unprecedented global alliance of investors which can genuinely mobilise the kind of trillions of dollars needed to put our **economy on the correct path**. This would be the most dramatic act of responsible leadership ever seen by the global private sector and would at once provide a catalytic incentive for the public sector to follow. With 2020 being seen as the “super year”, kick-starting a decade of action for people and planet, there is also an opportunity to bring sustainable markets into focus in each of this year’s major global meetings. While it will be a bit of a challenge for me to get to them all, I intend to do my utmost to ensure that the message of urgency, systemic change, collaboration and integration is heard. After all, ladies and gentlemen, do we want to go down in history as the people who did nothing to bring the world back from the brink in time to restore the balance when we could have done? I don’t want to. And just think for a moment – **what good is all the extra wealth in the world, gained from “business as usual”**, if you can do nothing with it except watch it burn in catastrophic conditions?*

*This is why I need your help, your ingenuity and your practical skills to ensure that the private sector leads the world out of the approaching catastrophe into which we have engineered ourselves.*

*It is my greatest possible hope that you will join me this year in accelerating the transition to sustainable markets and rapid decarbonisation – ladies and gentlemen, you all have a seat at the table as this must be the year that we put ourselves on the right track. Everything I have tried to do, and urge, over the past 50 years has been done with our children and grandchildren in mind, because I did not want to be accused by them of doing nothing except prevaricate and deny the problem. Now, of course, they are accusing us of exactly that. Put yourselves in their position, ladies and gentlemen. We simply cannot waste any more time – the only limit is our willingness to act, and the time to act is now. (\*my underlining and bolding)*

*'The most dangerous man in the room, is the one who speaks the truth' ~ Aristotle  
'The Crown possesses the Royal Prerogative which can be used to declare war on an enemy' (WEF 2020 speech). As is well documented the Prince of Wales has lobbied and sanctioned many of HM's Governments (even though he, HRH. should be separate from Government). However in the Real World of Power, Oligarchs and Royals have vast influence to affect ~ what can happen in the country. During UK's modern history (75 years), his family could effect the destiny of playing fields. UK. Government's policy sold off school playing fields to profit 'private business companies' over many decades. They also sold off our essential natural resources, water, oil, gas, electricity etc. This is well documented on the internet ~ This online instantaneous information is a way to see the truth of facile words by the rich not to harvest our data. We have to protect this resource, use it to shine a light on Justice. The justice of human rights, natural rights, freedom, equality, society, truth, consciousness. *'All Things Are Connected ~Whatever Befalls the Earth  
Befalls the Sons and Daughters of the Earth'*

*The Great Chief in Washington sends word he wishes to buy our land.*

*The Great Chief also sends us words of friendship and good will.*

*It's kind of him since we know he has little need of our friendship in return.*

*But we will consider your offer, for we know if we do not do so, the white man may come with guns and take our land. What Chief Sealath says, the Great Chief in Washington can count on as truly as our white brothers can count on the return of the seasons. My words are like the stars, they do not set.*

***How can you buy or sell the sky, the warmth of the land?***

*The idea is strange to us. Yet we do not own the freshness of the air or the sparkle of the water.*

*How can you buy them from us? We will decide in our time. Every part of this Earth is sacred to my people. Every shining pine needle, every sandy shore, every mist in the dark woods, every clearing and humming insect is holy in the memory and experience of my people. We know that the white man does not understand our ways. One portion of the land is the same to him as the next, for he is a stranger who comes in the night and takes from the land whatever he needs ~  
The earth is not his brother, but his enemy and when he has conquered it, he moves on. He leaves his fathers' graves and his children's birthright is forgotten.*

*The sight of your cities pains the eyes of the redman. But perhaps it is because the redman is a savage and does not understand*

*There is no quiet place in the white man's cities*

*No place to hear the leaves of spring or the rustle of insects' wings.*

*But perhaps because I am a savage and do not understand ~  
the clatter only seems to insult the ears. And what is there to life if a man cannot hear the lovely cry of a whippoorwill or the arguments of frogs around a pond at night?*

*The Indian prefers the soft sound of the wind ~  
darting over the face of the pond, and the smell of the wind itself cleansed by a mid-day rain, or scented with a pinon pine.*

*The air is precious to the redman for all things share the same breath, the beasts, the trees, the man.*

*The white man does not seem to notice the air he breathes.*

*Like a man dying for many days, he is numb to the stench.*

*If I decide to accept, I will make one condition.*

*The white man must treat the beasts of this land as his brothers.*

*I am a savage and I do not understand any other way.*

*I have seen a thousand rotting buffalo bodies left by the white man who shot them from a passing train. I am a savage and I do not understand how the smoking iron horse can be more important than the buffalo that we kill only to stay alive.*

*What is man without the beasts?*

*If all the beasts were gone men would die from great loneliness  
of spirit, for whatever happens to the beast also happens to man.*

*All things are connected. Whatever befalls the earth  
befalls the sons and daughters of the earth.*

*Our children have seen their fathers humbled in defeat.  
Our warriors have felt shame. And after defeat, they turn their days to  
idleness and contaminate their bodies with sweet food and strong drink.  
It matters little where we pass the rest of our days ~ they are not many ~  
A few more hours, a few more winters and none of the children  
of the great tribes that once lived on this earth, or that roamed  
in small bands in the woods will be left to mourn the graves  
of a people once as powerful and hopeful as ours.*

*One thing we know which the white man may one day discover Our God  
is the same God. You may think now that you own him as you wish  
to own our land. But you cannot. He is the body of man ~  
And his compassion is equal for the redman and the white.  
This earth is precious to him.*

~

*And to harm the earth is to heap contempt on its Creator.*

*The whites too shall pass, perhaps sooner than other tribes.*

*Continue to contaminate your bed and you will one night  
suffocate in your own waste. When the buffalo are all slaughtered,  
the wild horses all tamed, the secret corners of the forest heavy with  
the scent of many men, and the view of the ripe hills blotted by talking  
wires, where is the thicket? Gone. Where is the eagle? Gone.*

*And what is to say goodbye to the swift and the hunt, the end of living  
and the beginning of survival ~ We might understand if we knew  
what it was that the white man dreams, what hopes he describes to his  
children on long winter nights, what visions he burns into their minds,  
so they will wish for tomorrow. But we are savages.*

*The white man's dreams are hidden from us. And because they are hidden  
we will go on our own way. If we agree, it will be to secure our reservation  
you have promised. There perhaps we may live out our brief days as we wish.*

*When the last redman has vanished from the earth and the memory is only  
the shadow of a cloud moving across the prairie, these shores and forests will  
still hold the spirits of my people for they love this earth as the new born loves  
its mother's heartbeat. If we sell you our land, love it as we have loved it.*

*Care for it as we have cared for it. Hold in your mind the memory of the land,  
as it is when you take it. And with all your strength, with all your might and  
with all your heart preserve it for your children and love it as God loves us all.*

*One thing we know our God is the same. The earth is precious to Him.*

*Even the white man cannot be exempt from the common destiny~*

~

*This letter written in 1885 was sent to President Franklin Pierce  
by Chief Sealth of the Duwamish tribe of the State of Washington.*

*It concerns the proposed purchase of the tribe's land. Seattle is an  
alteration of the Chief's name; it's built in the heart of Duwamish land.*

*Pandemic Rant -the people had no fear then, they really trusted in love ~*

*We are living in unprecedented times, global lockdowns, climate changes ~*

*7 billion people, the destruction of Earth's resources, exponential development!*

*The pollution of the air, water, earth, the radiation poison of our oceans and land.*

*Censorship, genocide, famine, broken economies, separation, mega-military spending, which is insane, why? And 6 people (men) have as much wealth as the poorest 50%.*

*Will I lose my job, get ill, be denied health care, children stopped from going to school;*

*is there a devil and a god, is the dark the brightest light to some and Lucifer an angel?*

*This book hopes to confront these dichotomies, yet accepts the concept of singularity ~*

*The importance of intention and the role of social media to brainwash us dishonestly.*

*There's instantaneous access to the internet which offers treasure troves of information.*

*It is up to us to do our research as independently as possible, I use alternative media.*

*I have included numerous links to the sources I used, this is a new way of acquiring different interpretations and making your own mind up, as we are all free to do and finding the right answers to your questions on life from the simplest to most complex.*

*We don't have to listen to a teacher in class but can surf the internet as it suits us.*

*Only Bill Gates knows what he is attempting to do with his counsellors, I don't know him, I have information on his actions but I don't know what's in his heart.*

*I am aware of some effects of his actions and also I am using his Microsoft program which I accept revolutionized the world in many beneficial and amazing ways.*

*He also got to be the richest man in the world because of it AND I do find that in principle that Level of wealth to be wrong when billions of people have nothing.*

*Links to Oxfam's reports on wealth inequality are easy to find, free and concise.*

*I have made many distinctions in this work between the rich and the poor and who is profiting from the world's resources at the expense of other poorer people.*

*Again these things are easy to find on the internet and help us discern the truth.*

*Are we going to be enslaved by these oligarchs, our sovereign rights taken away?*

*Do we really believe in Spirituality even humanity in a world full of propaganda?*

*Do we want equality, even protection of the Earth if it stops my right to make money?*

*We have to make a livelihood and balance it with our environment, which is now being shaped, revolutionized by amazing high technology, with machines which seemed to be science fiction before, but which we can't do without in society to live a normal life now.*

*I recently saw and believed a video about Stanley Kubrick confessing to making the film*

*<https://www.youtube.com/watch?v=rfKL27MgaOo>*

*that convinced the world wrongly that the US had landed on the moon. A devastating insight which changed my view of things, then it was suggested that it was a good fake.*

*How do we know now as Falsity is everywhere to entrap our minds; it made me Think!*

*That we have to be careful as to what we believe and share with others, as we are being manipulated all the time, from gross to subtle, affecting profoundly our understanding.*

*False flags are a prime example, the mainstream News, a government skill of control.*

*How to find the right balance so we remain healthy, open, free, and conscious of Life.*

*Consumerism has gone to the extreme over the last 50 years at the same time we have*

*Lost 60% of the species of the planet. WHY? Why do people murder other lifeforms?*

*For money, for greed, for ignorance, from fear, from exploitation of nature's resources.*

*We need nature it is the basis of our lives not technological bubbles having their effects, for example plastic to Nuclear power, the right of people to have water as a human right?*

*For many it is not a right you have to pay and if you can't pay for essentials which*

*came from nature freely and are making corporations richer by its exploitation ~  
 Is that right? And who can change that dynamic which is controlled by the most  
 Powerful forces in the world, who want to protect their profits and want even more.  
 Amazon.org had [sales income of €44bn](#) in Western Europe in 2020, under what the  
 EU. calls a 'sweetheart deal' paid no corporation tax through Luxembourg. WHY?  
 And if we don't pay taxes we are criminalized. Why is it so different, who decides?  
 Amazon.org has become more powerful to the world than the living Amazon river.  
 Not to deny progress in science, technology etc but we have to have a balance with  
 Nature and people's rights to live in respect and dignity. Obviously this doesn't  
 exist in today's world and we have a responsibility to correct the balance ~  
 From Greed to consciousness and ego to sharing, fear, hate to loving kindness.  
 As John Lennon said, 'War is Over if we want it' Obviously after 40 years we  
 clearly didn't want it enough which seems true of all other social problems on Earth.  
 They could all be solved with the right will but that will is politically moved in the  
 opposite direction which unfortunately creates this existential and spiritual crisis now.  
 It was ever so, the human condition, their champions of human rights have always been  
 martyred, sacrificed to the God of power and wealth in the hands of those atop the pyramid.  
 It's not been all doom and gloom in fact my own life I enjoyed the freedom to travel the world,  
 to experience all the wonders of life, to love people and nature, the light does shine in there too.  
 Is that an Illusion, delusion, as many say, yet Life is what we make it for all of us integrated on  
 Planet Earth today. The world has become a social village, technology has made that a reality.  
 We have the energy, the minds and hearts, there is the will it just needs focusing in the right  
 direction, which doesn't seem so difficult when we can send a rover to Mars and other miracles.  
 What do we want, especially for the future and for our children? Do we want to live in a Matrix,  
 a QR. social credit score system like China with no free will, or spirit, but massive energy to  
 achieve, what? These superpowers what do they really want without paranoia, schizophrenia,  
 pulling them all into a game of power with devils and suffering, and inhumanity to each other?  
 Do you know what you want and what are you prepared to create for a better environment?  
 Go beyond the Fear game and the control, 'do unto others as you will have them do unto you'  
 Turn off the TV with its horrors, dramas, Super heroes doing crazy things, go for a walk ~  
 Enjoy the simple things, nature, reverse all this materialistic desire and be free of debt, stress.  
 Eat simply not GMOs or other unreal foods, why do we accept it, when we have the choice?  
 This madness of Growth being endless production to satisfy who, with what really? Good for  
 those who hold the reigns of power, making the decisions that affect all our lives, good or bad.  
 This pandemic is making us question everything, even our own family and friends; had a job?  
 Certainly those in government and NGOs have not been honest as other experts now report.  
 This is opening the curtain on the devil with no clothes but also a sociopathic, totalitarian,  
 despotic and tyrannical need, just like throwing slaves into the Colosseum to be killed.  
 There is no Love or mercy, there are wicked lies and manipulation of people's rights.  
 Research all angles, don't be afraid, our lives might depend on it, as these leaders  
 have been a disastrous failure and for reasons that used the exaggeration of the flu,  
 and locked us all down and now demand your vaccination to open the prison door.  
 Who are these people, what right do they have even if this pandemic was true?  
 Yet they continue just as they've caused catastrophic wars, they took away our  
 young generations for lies, cruelty, to murder or be murdered. Tell 'em NO.  
 YES we want a sustainable life of equality, kindness, happiness and Peace.  
 If they cannot provide these basics they must leave and go into exile NOW*

*We've had enough of Imperialism, of elites, nobles, the gentry, robbers.  
We will not support their colonisation of others to benefit exactly whom?  
We want an end to this ego madness, this megalomaniac psychopathy...  
We will not accept these corrupt and criminal dealings with no justice.  
Feudal times are over but you didn't get that message on your apple app.  
We don't want radio, electro-magnetic frequencies buzzing in our brains.  
We don't want rioting police in our street, or surveillance cameras either.  
Take your shit and leave the country go to some tax haven where you've  
buried your ill-gotten, immoral, unethical stash in some hidden vault.  
Leave, be gone and take all your cohorts, sycophants, lobbyists with you.  
All there for you to discover online, if you want to understand their game.  
The Mafia, the inquisition, the Empire masters, financiers buying slaves,  
and judges making it legal, and apartheid legal too. Time to leave, GO.  
Do you want good social conditions, security, education, Freedom, not  
a Criminal Justice Bill where more than 5 can't congregate together ~  
Why do you accept madness, ask them about their Reset, Agenda 2030.  
Haven't you had enough of being reigned over by people who don't care?  
They're only in it to take the biggest share, you are their slave, RIGHT?  
Whatever happened to the representatives, Unions, parties of the people?  
You can see them online, they are totally pathetic and should be jailed.  
Ask yourself if you want to live in harmony, because I think you don't!  
It's too anxious, better live in the laboratory and do what you're all told.  
No wonder the Earth is in a mess because you never gave a shit about it.  
Distracted with the terrorists, the jihadis, ASBOs, the cocaine, any shame.  
What happened to all you Christians, can't sing in the choir, go to church,  
all locked out of God's house because you might catch the flu, be praised!  
Religions like the government, the banks, they all want the big dividends.  
Want to make a fortune, desperately that's what they believe in, Money!  
Who can get the most, then what to do with it, send it offshore, a bore.  
It's 1984 all over, who would have ever thought, can't see my gran, or  
bury granddad, or marry someone, maybe fuck another one anymore.  
Well you've left it too late you're gonna be screwed and culled and  
poisoned, we've had enough of you, you've proven to be useless!  
In this jungle these predators are in charge of who live or dies!  
You should have woken up, you listened to their lies too long.  
Isolated, hypnotized, infected, injected, controlled, rejected...  
Brainwashing was too easy for you, didn't give a fuck about  
anything, now you got their boot stamped on your head!  
You can't even have a hug, you don't fuckin' deserve one.  
They're gonna cart you off, turn you into a whining zombie  
They're the same ones who told your great grandad to jump  
out of a trench and run at a German machine gun, WHY?  
Maybe you should have tried some permaculture, meditation  
just to give you some other idea about how things are meant.  
Have a deeper relationship with the Earth, touch the ground, soil.  
Plant some potatoes, tomatoes or buy a tin of spaghetti for dinner.  
You're definitely are a winner, you should have gone on X Factor.*

SEVA ~ Doing it in an Unconditional Love way

Wake up and change for Gaia's sake or we're all doomed in the Zoom room.  
Get a grip and throw that Martian trip in the bin, go and help a Palestinian.  
Whatever form it takes go inside and listen to your spirit in silent meditation.  
Be still for once have humility, gratitude, the grace that nature gave you today.  
Have some Loving Kindness, compassion, sympathetic joy and equanimity ~  
You might learn that this is a freak show and they're taking the piss with you.  
You're gonna have to learn to share something good; what is that in your life?

~

There's this obscene, extreme inequality destroying the fabric of society,  
are you ok with that because the leaders at the top want all of the gold.  
They'll sell their soul if asked by their betters to do what they're told  
to do, that's not good for you. You'll be sent to the knackers yard,  
unless you can prove you're the resident dissident, then they kill  
you but it will be quick, or they might censor, ban, imprison you  
if you had anything worthwhile to say, at her Majesty's pleasure,  
awaiting the arrival of an executioner just like in the London tower.  
If you got any secrets worth 'avin they might lock you in maximum  
Security just like that Aussie fella, Assange, they tortured him good.  
And nobody gave a fuck about justice, so now it's your turn matey!  
Left him to rot just like they hung up Jesus, nailed him to the cross,  
and the crowd cheered, he was a troublemaker, didn't bow, kowtow.  
It's just like the old days, public hangin' for nothin, spoke out of turn,  
so they thought they'd give us a big lesson, in front of all our eyes ~  
Nothing much has changed, could kill someone and get away with it.  
It's vile, they're demons with a false smile, keep your kids indoors.  
All these advanced communications but they can steal your house,  
make you and your family a refugee and tell them to flee right now,  
or they'll be bombed, everything will dissolve, disappear into dust.  
They spent so much money on the military, when grans got cancer,  
no one can say hallo, they'll give her a vaccine, won't be long now.  
First in line, they've done it before, charge of the Light Brigade...  
Those glorious playing fields of England and all that propaganda.  
Tell me what good have they done, they've shown their true colors,  
they work with the devil, a pentagram on his head, should be dead.  
PC Plodder with cannon fodder, whatever happened to Glastonbury?  
The deception of the Intelligence and depravity of the Prince what else.  
They're still running the show, I just don't know, how they get away  
with it, still we kneel, whatever happened to our honour and courage?  
Whatever happened to saying NO to these barbaric monsters in crowns  
Whatever happened to granny at the old people's home, or my friend  
Allie from Gaza, these kleptocrats and plutocrats are destroying it all!  
They've got no remorse, they believe their own God told them to do it.  
Just like the Nazi's ordering you how to live, do we need them, WHY?  
Time for a revolution, get off your arse, don't worry about the virus and  
find some spiritual consciousness, loving interaction with the countryside ~  
not these smart dystopian cities that are Panopticons always watching you.

### METTA

*(‘The Four Sublime States’, Nyanaponika Thera, B.P. Society)  
‘Love without desire to possess, knowing well that in the ultimate sense there is no possession and no possessor: this is the highest love.*

*Love, without speaking and thinking of ‘I’...*

*Knowing well that this so-called ‘I’ is a mere delusion.*

*Love, without selecting and excluding, knowing well that to do so means to create love’s own contrasts: dislike, aversion and hatred.*

*Love, embracing all beings, small and great, far and near ~  
be it on earth, in the water, or in the air*

*Love, embracing impartially all sentient beings, and  
not only those who are useful, pleasing or amusing to us.*

*Love, embracing all beings, be they noble-minded or low-minded,  
good or evil. The noble and the good are embraced because  
love is flowing to them spontaneously ~*

*The low-minded and evil-minded are included because they are  
those who are most in need of love. In many of them the seed of  
goodness may have died merely because warmth was lacking  
for its growth, because it perished from cold in a loveless world.*

*Love, embracing all beings, knowing well that we all are fellow  
wayfarers through this round of existence that we all are  
overcome by the same law of suffering.*

*Love, but not the sensuous fire that burns, scorches and  
tortures, that inflicts more wounds than it cures, flaring  
up now, at the next moment being extinguished, leaving  
behind more coldness and loneliness than was felt before.*

*Rather, love, that lies like a soft but firm hand on the  
ailing beings, ever unchanged in its sympathy, without  
wavering, unconcerned with any response it meets ~*

*Love that is comforting coolness to those who burn  
with the fire of suffering and passion; that is life-giving  
warmth to those abandoned in the cold desert of loneliness  
to those who are shivering in the frost of a loveless world;  
to those whose hearts have become as if empty and  
dry by the repeated calls for help, by deepest despair.*

*Love, that is a sublime nobility of heart and intellect  
which knows, understands and is ready to help.*

*Love, that is strength and gives strength:  
this is the highest love*

*Love, which was named “the liberation of the heart”,  
“the most sublime beauty” this is the highest love.*

*And what is the highest manifestation of love?*

*To show to the world the path leading to the end of suffering,  
the path pointed out, trodden, and realized to perfection ~*
