

An abstract painting featuring a vibrant, swirling composition of colors. The background is a mix of bright red, yellow, green, and blue. A prominent feature is a large, dark, swirling shape in the lower half, resembling a stylized eye or a celestial body. The overall style is expressive and energetic, with thick brushstrokes and a sense of movement.

Yoga Is 'No Ego' in Practice, our divine destiny ~

*In this context it is hoped to show the complete negative value of **Propaganda**, the reasons why it is used so fully and who it benefits and why. From the description of the Human Spirit it shows that **Propaganda** in fact isolates, alienates us from our own Self ~ Realisation and from the Consciousness that we are a part of this Cosmic energy; which is alive in everything, in the Natural Union 'Yoga' ~ of Life and reality. This Knowledge through Wisdom helps us realise the True value of original Life and the untruth of the Negative values described in '**Propaganda**'. How are we to become connected to this wise human sense of Our Universal Omnipresent Self within the greedy Globalised perspectives of today? This is the future with No fears. It's seen in meditation, poetry, Free Will, Creativity, mystical vision ~ deep wisdom and Love; not **Propaganda**, of fascism, separation, racism, fundamentalism, of corrupted despots, greedy politicians, business, media, advertising moguls, MIC. Militarists and in the Terrorism of extremists! This development of suffering & Ignorant manipulation of our 'Humanity' is an attack on All our Spiritual realisations ~ moments of Reality which for all of us are essentially changing, always flowing on ~ Our ego is not truly in Control of it. Surrender, transcend and free y/ our finite mind to the boundlessness. Don't get Attached to, but be Immersed within the Cosmic Stream ~ the timeless space, emptiness, silence, with the Source, not projections of the ego's mirage. Walk the pathless, true path until inside you become blissful Ocean, Sat Chit Ananda, Nibbana, innocence, love, infinite life ~*

Undercurrent of Life Stream

'In Buddhist psychology the process of the changing mind is manifested in two levels or streams.

The sub-conscious-stream 'Bhavanga Citta' and the Conscious-stream 'Vithi citta'.

Each one merges into the other.

The sub-conscious stream is the hidden repository of all the impressions and memories of thoughts that pass through the conscious mind;

All experiences and tendencies are stored up there, but they exert an influence over the conscious mind without it being aware of the source of this influence.

These two streams of mind being conditioned by each other .

The state of the active conscious mind and awareness is generally present during the day when one is awake.

It is conscious of all impacts and impressions continually received from outside, through the 5 senses or of sensations received from within by way of ideas or thoughts or recollections of former thoughts.

When this conscious-stream which is constantly receiving sensations from within or without subsides into inactivity,

as for instance during sleep, the other stream the sub-conscious (Bhavanga Citta) manifests ~ flowing like an undisturbed stream

so long as the conscious-stream does not arise to disturb it through the sense channels.

When awake, every time an arisen thought of the conscious-mind subsides and before the next thought can arise,

within that infinitesimally minute fraction of time, the sub-conscious stream intervenes. Then when the next thought of the conscious mind level arises the sub-conscious stream subsides into inactivity.

Since innumerable thoughts arise and fall one after ~ another during the day, so then are there innumerable momentary interruptions to the flow of the sub-conscious stream during the day. The sub-conscious is referred to as a state of subliminal activity viz. an activity that takes place below the threshold of the conscious mind, an activity of which therefore there is no awareness on the conscious mind. The conscious-stream holds only one thought or idea at a time, whereas the sub-conscious stream holds all the impressions of all the thoughts, ideas ~ experiences, that enter and leave the conscious mind.

This sub-conscious life stream allows us to have a memory, conditioning our thinking and action.

The Bhavanga is the 'bhava' (existence) and 'anga' (factor) 'Bhavanga Citta' is the indispensable factor or basis of existence.

The factor of life by means of which the flow of existence or being is maintained without a break ~ The continuing basis or undercurrent of life, the stream of existence keeping life going.

This stream of being is an indispensable condition of individual life.

It's comparable to the current of a river when it flows calmly on, unhindered by any obstacle, and when that current is opposed by any thought from the world within or perturbed by tributary streams of the senses from the world without then thoughts in the conscious mind stream arise. There is a juxtaposition of momentary states of consciousness, subliminal and suprasubliminal throughout a lifetime

Buddhist Publication Society. Kandy, Sri Lanka. 1980*

*These essential **conscious~subconscious life streams** are felt as a flow of sensations in body-mind. The equanimous awareness of this ever changing flow of sensations ~ ‘Sampaggana Satimo’ is what **Vipassana** meditation, see www.dhamma.org uses in practice to make us realise our Inner true being ~*

Velasquez’s insight / belief / his Art!

Ref: channel 4, UK 2003 by Mathew Collings.

“His unstinting truthfulness to the subject and the deep ~ respect and compassion for the individual, his democratic approach to Art transcended the artificial stylistic definition of the Art world of contrived appearances and rigid etiquette. He created unpretentious, sympathetic pictures of often apparently insignificant overlooked aspects of human life.”
Clarke wrote, ‘his aim was simply to tell the whole truth about a complete visual impression’ He hit upon the true imitation ~ of nature. Was that the goal in that time based on knowledge of the life, religious, political etc? Velasquez wanted to paint the truth and to become a Spiritually, real person maintaining his integrity in the face of the social conditions where artists had no influence and power. He was searching, and when he painted, it would be more real, valuable and conscious of spirit, self-belief & self-awareness

'The Guatemalan Truth Commission' of March 1999

The Guardian, London, 12 March 1999' verifies the following ~

'USA's genocide, plus the manipulation and cynical directing of the 'Democratic Media' to derange us with corrupt, coercive, criminal **propaganda** as the 'Democratic' values of freedom but instead it is to propagate paranoia, destruction, fear and Conquest for Political Power and Global Corporate Greed... without any respect of the International, natural common Justice.

We are blind and Ignorant, believing everything the governments feed us. We question nothing about the negative, fake, concepts, lies.

This book is to show that **Propaganda** is a tool of total manipulation and mind control used by powers for their own vested interests only, NOT for the Awareness of our true, inner, human Consciousness ~

Why? To create fear and dependency of ego not in our inner self~ or a belief in the experience of our divinity. We must become fully aware of these forces of illusion, putting them into their right context.

On a Spiritual journey, eg. drugs, passion, loss, politics, family, deep-attachments, desires, cravings, concealing our true, natural Loving Spirit. This life-stream can be felt as inspiration, by being aware and creative each moment. eg. Being a true artist as Velasquez, allowing our Consciousness to live honestly, generously, lovingly, freely, expressively, inspirationally ~

Updated, 1981-2003 The above examples are to show
life's relationships ~ that the 'bhavanga citta'
the sub-conscious undercurrent ~ life's stream
creative energy, frequency of free flowing sensations
essential for the human to live in the 3rd dimension ~
This state dictates how we react to the outside objects,
with craving or aversion. This blind reaction from the deepest
levels of the finite, ego-mind continues our ignorance and we create
more negativities and defilements, which in turn effect how we react ~
We then continue on this wheel of ignorance and (dukkha) suffering ~
If we can become aware, equanimously of the sensations on our body,
realising their nature is to always change, this allows us to Free ourselves
from these attachments (Anatta), to our Identity, cycles of reaction, and for
these defilements to be expelled from the deepest levels of our mind program.
Realise this relationship through the practice of 'Dhamma' and Vipassana-
meditation and it will lead to a harmonious, peaceful life of infinite space ~
Trust the natural wholeness of life and be happy, with no paranoia, fear, pain.
Knowing anything can happen at anytime, that this lifestream will transmute
when its time is right. Relax, accept Cosmic existence, let it flow spontaneously,
being aware right now, enjoying this experience of life

*'Clear water offers a still and clear reflection of what there is! Brain washing and corruption only pollutes that view and understanding. So what can be learnt, what can be really discovered about the truth ~ of who we are? How to start to live without doubt, negative, selfish needing, to know right and wrong. To perceive those who lie with straight syntonic faces and without any sign of guilt or immorality or greed... How to see through the manipulation by our own egos! Their corruptions infect whole cultures and generations. So you wonder, what is natural, who is, uniquely you ~ and if you possibly ever could be truly real or a delusion? Clarity now, it's obvious, meditation goes beyond mind. Only **propaganda's** eruption, destruction and corruption. Why accept it, be fooled by any of it, when this painful, ignorance only leads to confusion, separation, illusion ~ and disconnection from your very own deeper, inner being needed to realise Cosmic fulfillment of our human spirit?*

*

*It is a powerful ego force of self delusion ~ and a mesmerizing conspiracy of distortion. Be on guard against it, persevere and preserve; the most important qualities of our concentrated, healthy, calm and loving, conscious mind-hologram which takes us past the crazy manifestations of my ego to the point of its **Self-transcendence, beyond thoughts.** This can't be found if we're still floundering on the ground. Live a wonderful life of inspiration in this world and Universe, as a vibrational being. Conscious of all Space, keeping it real ~ Transcendence, we realise the whole of reality is ever-changing, beyond my personal intervention on a multitude of unidentified dimensions, experiences which make up our sense of who we are ~*

We still cling to the idea that 'I' am solely in Control...

*Ultimately, everything happens because **I am** somehow making it happen or responding to it in my bio-chemical mind. This is a Materialist mirage, the truth is, it's beyond our senses! Therefore **I am** happy, sad, good, bad, up, down because of '**Me**' what '**T**' do. 'My Reality Is' because of Me, My self-identification. Our matrix-programmed minds fulfill their own definition of Self by developing memories which we are obviously made to believe!*

***Propaganda** tries to mould 'our consciousnesses' for its own aims! The essence is a Cosmic reality of energies existing in us, forever ~ continuous changing by itself regardless of what we think, or **I** may be doing as the 'Director' CEO. this process of existence, which **I** Manage from My box! This is the characteristic of the Living force in each and every one of us alive in nature. Accept this impersonal concept, surrender, you experience Free flow, it's not Ego after all so, it's not Your Show! You need not become a Megalomaniac!*

Now you have a Conscious input by how aware are your actions and thoughts. Simply start, putting in mind good seeds and nature gives good fruit. Put in bad energy, nature produces negative energy.

The Future of your development is in your dhammic hands here now!

*Ultimately it is infinite, it exists inside you Cosmically. **Propaganda** is only a pathetic attempt to control y/our minds by making us forget who we are as offspring of the Divine. Let this sense of Your full Ego-Self go ~ free yourself, surf in life's waves. Be It All not a SLAVE to any sociopath.*

You, become a good and happy Vipassana, insightful Yogi observer flowing in the depths of your own sub-consciousness with awareness.

'The Truth will Set You Free as One' There is no divided, separation. Surrendering to sacred quantum frequencies, not Self, defined reactions. Surfing these boundless energies, interwoven waves of life in a 3D Form.

Electro magnetic sunbeams enlightening our ever changing sensations

Total Freedom >:< Total Truth

What does it say about the Authorities producing this Culture of Mass Deception? What is their real 'Vision', motivation, aim, ambition, is it really evil, UN Agenda 21? What is this thinking, perception, realisation based on... to propagate such ugly ignorance in its people, to live by and to share with other living creatures on this planet.

They're really committing Major Crimes against humanity with such high moral tones! Supported by religion, big business, production, education, entertainment, the arts, the globally biased, false media. Usurpers, collaborators, vampires in this darkness of... Bright Sparks! Why? What an irony, what a dichotomy, hypnotised by clever TV illusionists, Mr. Bernays and the expert Magicians trick! Like finding a rabbit in a Top-hat. Flick the channel, flip the mindset.

*

Transcend it through your human kind!

Is there even such a thing as 'Truth'? Professor, editor, Minister, director, priest. Where is The Truth existing? Where are those paralysed, unrealised intellectuals, bought off by materialist self-gain. What morals, such a dreadful shame! And would it ever be allowed to exist freely if it did appear to... interfere, seriously put into question this inhuman Status Quo? However they are destroying our Sense of humanity and nature, Cosmic Consciousness of Spirit. They're providing Demon Cratic Utility, self-righteous pride ~ this fear, prejudice, hate, dysfunction. Polluted by global Kleptocratic conspiracies of ultra-sensory unction! No more excuses realise what 'spin doctors' are really doing for you. Give them a very clear, unambiguous message, "Not In My Name, Never Again." No more Force fed washing of our desensitized brain. No more Illegal Wars justified by War criminals in Darth Veda suits. 'There are more black prisoners in US jails today than slaves in 1850'

Genocide are US. Seriously straight, Ironed Uniforms

No more extreme reactions, like the destruction of 120,000
Innocent Iraqi civilians, through their own Patriotic fed,
violent actions! No more surreptitious wielding of the devil's
flame thrower in some holy undemocratic, crusading blame game!

This is a pernicious, evil, negative, Power struggle.

They want the Power absolutely! Like old Cold War Authoritarian
Russia and the United States. The nuclear blind minds created to
sabotage generations of life with Civil strife! They are "Terror rising
each other's populations, their allies, who they come into contact with."
"You're either with us or Against us madness, they're clinically insane"

Yes, this is even worse now because of more sophisticated techniques
and Information technology and NSA, super computer surveillance!
But brutality and cruelty is the same Mr. & Mrs. Public Executioner.
They can and do Invade our Lives, destroy all sense of our inner beings.
You can do a yoga night class, what's that, no joking? They dumb down,
infiltrate, reinvent true insights into mundane, trendy life-style soundbites.
Realise, retort, retract, retrench, rethink, don't blink, retry, retaliate ~
never too late, restate, restrict, restrain, resurrect, resuscitate, reevaluate,
retard this retrograde. Made a fearful climate. Time for a climate change.
The Global warming of our hearts and minds to know who we truly are,
and what we're truly capable of! Retain your spiritual insight of wisdom.
This is a new Psy-OpsWar not of Terrorism! By these forces of Reaction...

on our Planetary, human culture, natural environment and Spirit

Tell them All, this is completely unacceptable!

Globally, Authoritarian psychology, to control the Planet.
Enslaving us in a mental-state of unconscious ignorance ~

French police show they no longer want to fight
against their own people, the yellow vests. 2.12.2018

WOW, this is a moment of real change as seen in the streets of 1968, 1789
and to the revolt against Louis XIV and to many other Absolute dictators.
The realisation, awakening, by those enforcing the law of the Authority, of the
Rich and Powerful. EN SOLIDARITE They have seen the naked Emperor
and he is an ugly, mean, sociopathic beast! That we, all the people are right,
the gap of inequality between the rich and the ones who are surviving to make
ends meet on a Planet of Abundance, where Mother Nature gave it to us all
as a gift for free. It's becoming apparent through social communication and
the courage of the people in a belief, that they and their children are not born
to be slaves, although they were born into a Global, imperial slave market,
a system of many centuries; today's Metamorphosised Matrix of Predators.

If you won the Lotto, £1 million how would it go down if they never paid out and said go fuck yourself? It wouldn't be acceptable. You won it. It's yours unless you get a bunch of bangster-gangsters with a mad army! I think most people understand winning a democratic vote, an important Referendum; or about a marriage that wasn't love at the beginning or end but they stuck too it until they received their only opportunity to leave in 40 years; since the marriage began. It's interesting that such an opposing view was manifested and won. It's ultimately about the elite trying to find a way to screw you, your brain and condition you, convince, coerce you to accept what you are told, as if it came from some God, ordaining the caste-system from the bottom to the top of a psychopathic hierarchy, hiding ~behind screens of another Big brother, killing your mother! If you believe in that you'll believe anything; that blue blood is mightier than the reds ~Who is actually behind making these insane wars, this (in)human suffering? It's no accident...

Outlawed it now they're the dealer!

The biggest threat to society is the politicians who ignorantly, have made draconian policies criminalizing marijuana over 80 years. Millions of lives have been ruined by this corruption. And again they are only now supporting this product that looks to benefit them and their greedy companies' profitably! Such hypocrisy is pathetic. They should be made responsible and now maybe we can discuss those areas such as exploitation, plastic, oil, fracking, weapons sales; and change these wrong actions into something positive for our planet!

It's moral corruption to say the least! 'Yes, Prime Minister'. 'Do what I say, not what I do!' Time to throw off mental slavery and be divine.

Ultimately is there a free choice or are we all controlled by karma?

*Buddha's example is offering peace, harmony and self-realisation,
which gives us a more human possibility to live more consciously ~*

*The distinction that the basis of human interaction, cause and effect
is set in the mind which we are so intrinsically absorbed into, that we
cannot see beyond its omnipresent, omniscient, omnipotent variations.*

*In Buddhist psychology two streams of consciousness exist in humans,
bhavanga which is essentially a sub-conscious stream which carries in it
every energetic impulse and the Tattva stream which is the more superficial
consciousness of mind, the engine of your reaction in the 3rd dimensional ~.*

It is this 'conscious' ego-state of mind that we are concerned with all the time

We're unaware of this deeper stream, bhavanga which is subliminally active.

Our mind is working incessantly, based on karmas and outside sense stimuli.

It's manifestly proven, Mind is manipulated and controlled by outside forces.

*As seen in advertising, messaging to our brain in all areas of life. Cambridge -
Analytica recently is shown to use these techniques to calculate, orchestrate and
effect people's political choices through propaganda, brainwashing without them
knowing. The Powers dictating 'reality', use this brainwashing for the Matrix.*

As we enter into a new era of super-computers and 5G. global networking which

Incorporates Artificial Intelligence and Virtual realities people will be living ~

under an informational, meta-data cloud which will direct all human activity

and functions. As humans we will lose our connection, being desensitised to

*each other and to nature. We see the consequences of this already with the loss
of social contact and the willful, exploitation and destruction of our natural ~*

*environment. We have lost 60% of wildlife on the planet in the last 50 years! These consequences of disaster are well documented yet the Powers that be are continually ignoring the results! **WHY?***

*

The point is, regardless of political, polemical, philosophical, rhetorical debate, it is absolutely derived from the mind, that we take as the absolute arbitrator.

*Our whole raison d'être as humans, what is believed to make us superior to everything else on the Earth is our Mind, our capacity to Think above others! Based on our ideology this allows us to do whatever we want to anyone else. The new Brazilian Government 11/2018 has promised to exploit the Amazon (a vital Planetary bio-sphere resource) and to abrogate all rights of the native, indigenous Population. This is obviously outrageous, BUT it still happens all the time but **WHY?***

Because of our Mind, in particular the 'Minds' of those despots at the Top. We have all been programmed, brainwashed to facilitate certain outcomes ~ One could argue that it has ever been so. That this is the human condition... since civilisation was recorded. Throughout evolution the mind has developed, we have become more aware of the mind, within certain perceived dynamics ~ This intellectual understanding has been used to facilitate different outcomes. Empires, heart transplants, android production, rocket to the Moon and back! Whatever you're told, believe is REAL; religions have taken over control of our Psyches. Every dimension is now seen as necessary to exploit and dominate us. What happened to our Freedom? Modern technological advances are allowing this 1984 scenario of Big Brother to exist, for the benefit of whom and WHY?

*

What's in their Mind suggesting this is the way forward knowing what we do about the Universe & micro-cosmic nature. Is this what it's all come down to? Are we influenced by invisible forces outside our human frequency waveband? As these actions are seen as Alien to any human who has feelings & empathy! All this filtered information interpreted through our mind's reflection-response, on the mirror surface of this living entity which we believe to be paramount to our being. As is said, the 'mind is a wonderful servant or a terrible master'.

We are therefore enslaved by the concept of the absoluteness of Mind and those who control what our minds are devising, so more ways to Control us. Is there something more intrinsic than the mind? Soul, Spirit, God, Space?

*

*The NWO Powers want to contain the World's population in Control grids. They have determined regardless of any consequences which are so prevalent that all of nature is there at their disposal and for their enrichment under the guise of politics. They're already so rich this 1% up to the handful of families dominating our Planet! Why do they demand more and sacrifice nature more when the top six individuals have as much wealth as the poorest 50% of the 8 billion inhabitants of Earth and rising every second? Are there richer beings? The 13 richest families which are documented, + Black nobility, the Vatican! They want the Control, the Power to maintain their privileges regardless of any consequences on the rest of us fellow beings, and they're prepared to do anything in order to maintain that. This is a conspiracy enacted by them to disenfranchise us and keep us and our grandchildren as **THEIR SLAVES!** We're happy to accept, doing their bidding as if they've a holy, divine right; even such monstrous inequalities! > <http://howtheworldreallyworks.info/> What type of creatures are they sat in their guarded Palaces, and those who are their lackeys? Their vibrational field has to be 'inhuman', psychopathic, the lowest end of the frequency band in order to insanely continue directing such atrocities, insanity, devastation, crimes against nature and humanity.*

*

Cognitive dissonance, Ego-syntonic, sociopathic conditions, genetic ~ social engineering, paranoid are clearly what allow this group to act the way they do with no empathy, compassion, feeling, only blood lust! Divide and Conquer is their motto, as well as 'by deception you wage war'. They're exempt from any basic laws and at the same time are creating and enforcing a 'dystopia' on the rest of us. In 'A Brave New World', Dystopias are characterized by dehumanization, tyrannical government, environmental disaster and characteristics associated with a cataclysmic decline in society.

WHY?

To protect their interests and for their dynastic fortunes to grow as imagined to be their superior right. There are countless examples in history, however today we are in the age of information and energy and extreme inequality! We have the possibility to know the pattern of things, but little possibility to change things peacefully. Again, this is a master game played out in our Minds, which is limited by its ability, to only think. 3rd W.W. is a Psy-ops! Mind itself is uncontrollable by its nature, yet through culture, education ~ and identity we are all able to be moulded as was well demonstrated by the Nazi's, also by all Governors of societies. They basically understand how the human mind is programmed; what is necessary to be a totalitarian!
