We're All Stardust ~ This body is our Temple

What is Really out there \* Space, Known, Unknown & yet to be discovered of our 'Human Condition' ~ this Fantastic realisation that we're from a Quantum, infinite Cosmos  
We now have a New concept of how to view, evaluate, react, believe, having a relationship with our\*Selves here!

**Who are we, where are we from, where are we going?**

Is it all in our genes that were always evolving into existence, we just didn't know it! This is true of Unimaginable states still to be found as we continue consciously on our eternal journey as sub\*atomic dimensions of Energy, Psyche, Mind, Identity, Conditionings, Programming, Memories, fractal patterns of ego. Karma ~ Our 'dis/orders', endless, awareness to be witnessed!

How to transmit a 'Universal concept' into a 'human' Sense?

How do we seem to have progressed so far, Signor Galileo?

Krishna says to grief stricken Arjuna on a bloody battlefield,

**"While speaking learned words you are mourning**

**for what is not worthy of grief. Those who are wise**

**lament neither for the living nor the dead."** (BG.ch. 2.11).

How/what is this Realisation based on? He teaches that essential Knowledge is witnessing the difference between Materialistic and the Non-materialistic, Spiritualistic phenomena ~ being here now

\*

Realising this is a Sense Conscious body of boundless energy ~ caught by an Ignorant, false Ego, thinking Mind, creating 'FORM'.

All sorts of Attachments, delusions, illusions (Maya,) trapping us.

We condition our Selves and are conditioned by other forces.

Our bodies & Minds working in energetic fields manifesting 'disorders' are not 'normal' to society so deemed 'Anti' to it.

They fit you in their box to treat; You live in that box or not.

How would you ever have any idea, clue to transcend the box you're told you belong in? And others will never Realise either

and will continue to react outside to feelings they're unaware of.

We all inhabit this World & respond in our turn ~ being here now

Yogesvara ~ Master of all the Mystic Power

Recognition, Renaissance, Transcendence of 'Reality'  
Isn't it true Ancient knowledge was based on this Sub-Atomic,  
Quantum, holistic, fractal, genetic sub/Conscious Realisation?  
Taught in many environments ~ 'The Bhagavad Gita' is famous,  
"O lotus eyed Krishna is 'The Cause of All Causes'  
The Source of All Illumination".

Shows his Transcendental \* Universal eternal formula,  
entering into his Material Manifestation to teach Arjuna.  
"Every living Entity is only a Spiritual Spark" Not 'disorder.'  
It's Impossible to understand by mind this Unlimited Infinity.  
Discerning Material Form and all pervasive Spiritual Reality.  
Revelation is not possible for those of Mental Speculation  
but meeting through devotional service, not being attached  
to a Tourettes' glitch the 'disability de jour' tickling your box!  
Syndromes, chronic disorders, out of Sense perceptions.  
"I give you divine eyes to see my mystic opulence."  
Seeing the All Expanding, Unlimited Universal form  
(BG ch. 11.13) not with Mind but Spiritual eyes ~  
to see, don't change your Mind, change your vision  
as if 100,000 inexhaustible Suns arose at once.  
Blazing radiance in the sky \* heating the Universe...  
Sitting in a Chariot with Krishna observing the Wondrous

\*

Playmates of Krishna

Attracted by loving features not displays of wealth.  
Immersed in pure Love ~  
Immeasurable like the Sun  
Brahma sitting on the Lotus flower  
Shiva playing with his divine snakes  
Unlimited the Origin ~ no end or beginning.  
(BG ch. 11. 25-32) 'The law of nature is non attachment'

And the controller of both"

It's All Existence.

Four million assembled on the Kurushektra Battlefield;  
10 survivors! & what about HIV in Africa or India today?  
TB, polio, trauma flashbacks from Class-room attacks,  
and living as a blind person how do you see any light?  
Their own body is 'Immaterial' they can't see 'disorders'.  
Feeling the essence shining inside with golden radiance.  
What about recidivists, many types of diagnosis, **let it go** ~  
"Never was there a time when I did not exist; there is no you  
nor all these kings, nor in the future shall any of us cease...  
to be Alive in the heart of every living entity" (BG.ch. 2.12).  
"All are eternally Individual beings both in Liberation and  
conditioned situations", always in existence so don't lament.  
The supreme is separated by the cover of Illusionary Maya.  
Awareness is merging into Brahma's impersonal, infinite aura  
of continuous immateriality ~ Impermanent Buddha vibrations.  
Take your pick once through the veil ~ (a metaphor for sacred).  
Being liberated from diagnosis, separated Conditioned States.  
Self-realised not being upset by changes of a body or 'disorders'.  
It finally transmutes ~ the body itself (life's relative imperfections).  
"Rejoice at the rejuvenating of this living energy" ~ Are you ready  
for the more superior enjoyments of this material existence?  
Physical & mental phenomena are human definitions. 'Quantum'  
is intrinsically transcending all the '**disorders**' and imperfections.  
Always changing, non-permanent; death is the end coming from  
**Sense Perceptions** ~ tolerate them without being disturbed.  
(BG ch. 2.15) "Liberation is Not upset by happiness or distress"

Conscious of pains & pleasures ~ of the body/mind's limits.

Only this Material body is destructible, embodied beingness,  
we all will die somewhere under a sub atomic, starry lit sky.  
"Never commit Violence to anyone, it is abominable"  
'Arjuna's engaged in killing for Religion' It's hard to accept!

still witnessing (not forgetfulness) streams of consciousness.  
What do you Believe? Embrace a divine doctrine of devotion;  
Loving Kindness & Compassion taking you to transcendence.

but you have to be detached from any Identity, any Programming.  
However wonderful it may seem, remember it's all a deep dream.  
Be the Cosmic witness and enjoy full Psy\*trancing in Anjuna.  
Feel the butterfly flying freely in the clear blue summer sky.  
I say enjoy a smile from your heart & from her soft lips.  
Importance to be able to flow above the Mind, being kind.

Opening for us the doors to Heavenly Planets \* Galaxies.  
To do your duty without Expectation Arjuna; everything is done  
for Transcendental Consciousness, the highest quality of Action,  
of being, so No Reaction from Mental Activities, just Surrendering.

Use your Mind and body to do this especially when down.  
When the ego is weak, at the rock bottom, in a mess, zero,  
lost with no hope. Surrendering becoming Humble, for once

be a full, complete tragedy. This is the silver lining, it takes you  
through the Gates of hell ~ Like Arjuna not wanting to fight a War;

### Undercurrent of Life Stream

*'In Buddhist psychology the process of the changing mind is manifested in two levels or streams. The sub-conscious stream **'Bhavanga Citta'** and the conscious stream **'Vithi citta'**. Each one merges into the other. The sub-conscious stream is a hidden repository of all the impressions and memories of thoughts that pass through the conscious mind; All experiences and tendencies are stored up there, but they exert an influence over the conscious mind without it being aware of the source of this influence. These two streams of mind being conditioned by each other. The state of the active conscious mind and awareness is generally present during the day when one is awake. It is conscious of all impacts and impressions continually received from outside, through the five senses or of sensations received from within by way of ideas or thoughts or recollections of former thoughts.*

*When this conscious stream which is constantly receiving sensations from within or without subsides into inactivity, as for instance during sleep, the other stream, the sub-conscious (Bhavanga Citta) manifests, flowing like an undisturbed stream so long as the conscious stream does not arise to disturb it through the sense channels.*

*When awake every time an arisen thought of the conscious mind subsides and before the next thought can arise within that infinite-simally minute fraction of time, the sub-conscious stream intervenes.*

*Then when the next thought of the conscious mind level arises the sub-conscious stream subsides into inactivity. Since innumerable thoughts arise and fall one after another during the day so then are there innumerable momentary interruptions to the flow of the sub-conscious stream during the day. The sub-conscious is referred to as a **state of subliminal activity**, viz. an activity that takes place below the threshold of the conscious mind, an activity of which therefore there is no awareness on the conscious mind.*

*The conscious stream holds only one thought or idea at a time whereas the sub-conscious stream holds all the impressions of all the thoughts ideas and experiences that enter and leave the conscious mind.*

*This sub-conscious life stream allows us to have a memory, conditioning our thinking and action.*

*The Bhavanga is the 'bhava' (existence) & 'anga' (factor) 'Bhavanga Citta' is the indispensable factor or basis of existence. The factor of life by means of which the flow of existence or being is maintained without a break, the continuing basis or undercurrent of life, the stream of existence keeping life going. This stream of being is an indispensable condition of individual life.*

*It is comparable to the current of a river when it flows calmly on, unhindered by any obstacle, and when that current is opposed by any thought from the world within or perturbed by tributary streams of the senses from the world without then thoughts in the conscious mind stream arise. There is a juxtaposition of momentary states of consciousness subliminal and supra-subliminal throughout a lifetime'.*

Healinghereandnow.com

The Merkaba is an energy field of light that surrounds our body. It's built of two Tetrahedrons (male & female) creating a Star Tetrahedron that has three aspects.

The Primary aspect always remains stationary while the other two aspects rotate in different directions.

Creating this energy field of light and unconditional love has been practised in the Mystery schools of Lemuria

Atlantis and Egypt as a tool of ascension.

It is part of Sacred Geometry ~

which purpose is to show 'the Unity'.

Effects and benefits: 'Meditation on the Merkaba Yantra will operate the 4<sup>th</sup> Chakra ~ Your Heart and connect you with Universal Love. It will activate your 'Body of Light' ~ 'The Merkaba' and strengthen your ability to work with your energetic field. Once your Merkaba is activated you will have expanded awareness of who you are

### Upanishad

*“Fetch me a fruit of a Banyan tree.” “There is one sir”  
“Break it.” “I have broken it sir.” “What do you see?”  
“Very tiny seeds sir.” “Break one” “I have broken one”  
“What do you see now?” “Nothing sir.” “My child” the  
father said, “what you do not perceive is the essence,  
and in that essence the mighty Banyan tree exists.  
Believe me my child, in that essence is the self  
of all that is. That is the True, that is the self ~”*

### ‘Cosmic Trigger Final Secret of The Illuminati’

*by Robert A. Wilson > from the Ancient Babylonian p.3.*

*“It was the sad time after the death of the fair young god  
of spring, Tammuz. The beautiful goddess Ishtar, who loved  
Tammuz dearly followed him to the halls of eternity, defying  
the demons who guard the Gates of Time. But at the first gate,  
the guardian demon forced Ishtar to surrender her sandals,  
which the wise men say symbolises giving up will.  
And at the second Gate, Ishtar had to surrender her  
jewelled anklets, the wise say means giving up Ego.  
And at the third Gate she surrendered her robe,  
which is the hardest of all because it’s giving up Mind itself.  
And at the fourth Gate, she surrendered her breast cups,  
which is giving up the sex role.  
And at the fifth Gate she surrendered her necklace,  
which is giving up the rapture of illumination.  
And at the sixth Gate she surrendered her earrings  
which is giving up Magick. And finally at the seventh Gate,  
Ishtar surrendered her thousand petalled crown  
which is giving up Godhead. It was only thus,  
naked that Ishtar could enter eternity.”*
