

An abstract, vibrant painting with a complex texture of brushstrokes. The color palette is rich and varied, featuring deep blues, fiery reds, bright yellows, and warm oranges, all intermingled and layered to create a sense of depth and movement. The overall effect is one of intense energy and emotional resonance.

'In Lak'ech'

Is Mayan for 'I am another yourself'

A powerful concept embracing the notion that we are
all connected through the Energy and Flow of the Universe.

The galactic code of honour is to manifest and demonstrate harmony
by whatever means possible. Always playing by the rules of harmony at
the same time respecting local intelligence. The code's chief command,
to do nothing to further any notion of duality or separateness.

Revolution at the barricades

“The purpose of Mindfulness and the four sublime states was to neutralise the power of the ego that limits human potential. Instead of saying “I Want” the Yogin would learn to seek the good of others; Instead of succumbing to the hatred that is the result of our self ~ centred greed; use compassion and good will. When these positive, skillful states are Cultivated with Yogic intensity, they can root themselves more easily in Unconscious impulses of our Minds so becoming habitual. The Four Sublime states are used to pull down the barricades we erect between ourselves and others in order to protect the fragile ego.”
(‘Buddha’ ~ Karen Armstrong)
