In response to the images of the G20 conference

Demonstrations in the City of London on 1st, 2nd April 2009. In particular the 'death' by 'Internal bleeding' of Mr. Tomlinson who would have been an anonymous casualty probably put down to 'natural causes'. It certainly seems the Authority's Official reaction was that and no Police officer came forward with any statement to refute this. It was only when video film was later shown from an Independent observer who filmed the incident with eyewitness corroboration that Mr. Tomlinson in fact was heavily pushed to the floor with a metal baton struck against his legs. What effects me is the typical 'Cover up'/'Spin' from the Military style authorities, the lies and therefore corruption. Having lived in Goa in March 2008 when Scarlett Keeling was allegedly raped and murdered with a police, political cover up I condemned their corruption and compared it to the honesty of British Police. My naiveté is apparent now. What sickens me is not only the 'Hype' by the Media/Police to Criminalize all these protesters who have a legitimate right in a democracy to Protest But also the fact that Mr. Tomlinson was trying to go home after working and had nothing to do with the G20 Protest. He is seen innocently passing the Police with No 'Anti social' attitude or provocation to any Violence in fact he has his back to the line of police who are in full riot gear And he had his hands in his pockets so offering no direct threat to them! He was brutally struck to the ground and two minutes later died of Internal bleeding whilst on the ground not one of the Police Officers went to help him up! To me what is most worrying about the incident is this Authoritarian Force behaving as a gang of goons described in the days of the fascist/Gestapo of Pre WW2, Nazi Germany especially with the fearful scene of German Alsatian dogs on the leashes of the City of London Police surrounding this sole innocent human being! 'Police Unaccountability and the Public's lack of trust must change!'

RADIO ACTIVITY * (Independent. London 16.04.09)

'Equivalent to roughly half the fall-out from Chernobyl has been dumped or lost at sea by the former Soviet Union. Much of this is in seven reactors from nuclear submarines and one ice-breaker vessel that were dropped into the sea with highly radioactive nuclear fuel inside them. Six of these fuel-laden reactors were dumped in shallow inlets of Novaya Zemlya between the Barents and Kara Seas, north-east of Murmansk'
'The Russian commission estimated the total radioactivity associated with Soviet marine dumping is between 300 and 2,500 kilocuries; the Chernobyl nuclear reactor explosion was responsible for the release of about 6,000 kilocuries. The accidental loss at sea of three nuclear power submarines added a further 650 kilocuries. The report says the greatest potential hazard to wildlife and humanity came from the dumping of reactors containing nuclear fuel in shallow Arctic waters. It also emphasizes the many uncertainties; how long it would take before the reactor walls were breached by underwater corrosion, how far and fast the radioactive materials would be spread by currents once they escaped into the sea, how quickly they would enter and move up food chains'

ABOUT SUNNY JETSUN

Inspired by the sixties Sunny started traveling the world in 1970. His spiritual journey on the hippie trail to India took him through San Francisco, Los Angeles, London, Amsterdam, Paris, Vancouver, Sidney and Kathmandu to Varanasi. His arrival on the sub-continent was the beginning of writing autobiographical verses capturing his travel experiences, encounters with remarkable people and his quest for self-realization. Combining experimentation with drugs, sex, rock & roll, meditation, Love and life in general. Sunny started to open up to a multi-dimensional Universe. He lived the mantra, "Turn on, tune in, drop out" realising Mind's-illusions, inspired by deeper feelings of holistic nature, empathy, energy & Space.

Over four decades Sunny has written and published 28 books of poetry, created over one hundred paintings, traveled the World and considers his masterpiece to be his daughter. He has spent the past fifteen years in Goa, India inspired by the freedom to experience and idealism of human consciousness.
