Evaluate if there's any truth; realize Why/if we are being manipulated by this Disinformation and 'Lying Propaganda'

Wikipedia's definition of Conspiracy:

'A conspiracy theory explains a historical or current event as the result of a secret plot by a usually powerful cabal.

Conspiracy theories are often viewed with skepticism because they contrast with mainstream explanations for historical or current events and lack conclusive evidence to support themselves.

The term is therefore often used pejoratively in an attempt to characterize a belief as outlandishly false and held by a person judged to be a crank or a group confined to the lunatic fringe.

By Dr. K. Matto, [scionofzion.com/federalreserve](http://scionofzion.com/federalreserve) >

(Baron Rothschild) "I care not what puppet is placed upon the throne of England to rule the Empire on which the sun never sets.

The man that controls Britain's money supply controls the British Empire and I control the British money supply."

"The idea of a Central Bank is to so enslave the people of the country to a debt money system that they continuously pay in taxes to just cover the interest. The duped people of the United States are paying about \$400 billion year to the IRS which is the collection agency for the Federal Reserve." The Federal Reserve is a privately owned bank with 9 private members ~

*\*\*Rothschild Bank of London, Warburg Bank of Hamburg  
Rothschild Bank of Berlin, Lazard Brothers of Paris, Kuhn-  
Loeb Bank of New York, Israel Moses Seif Bank of Italy,  
Goldman Sachs of New York, Warburg Bank Amsterdam,  
Chase Manhattan Bank New York; are the Fed's Central banks.  
"It was entitled the Federal Reserve Act of 1913. America once  
again had a central bank but this time they had placed America  
under an absolute dictatorship. The Federal Reserve was  
incorporated in 1914 and has been creating a completely  
unnecessary national debt ever since. In simple terms, the  
Fed creates money as debt. They create money out of thin air  
by nothing more than a book entry. Whenever the members of  
the Fed make any loans, that debt money is our money supply.  
Now that the Federal Reserve was firmly in place, schemes  
had to be constructed to get the government to borrow so  
a continuously growing national debt would happen.*

*Here are some coincidences: The Federal Reserve is created in  
1913, then in 1914 we have World War 1. (The Stock Market Crash  
1929, WW2 Etc); The American economy has been sucked dry by  
the Federal Reserve System. Americans think they own property  
but the truth is the entire United States has been mortgaged to the  
bankers. The Rothschilds and Rockefellers become richer while the  
peoples of the world become poorer. The International Monetary  
Fund and the World Bank are also designed to loan money to  
developing nations with the understanding that they will never be  
able to repay so with every loan made to a country, it becomes  
their death knell.*

*The entire world is plunged into a debt economy which  
means 6 billion people are in debt to about 250 men."*
