Undercurrent of Life Stream

'In Buddhist psychology the process of the changing mind is manifested in two levels or streams. The subconscious stream 'Bhavanga Citta' and the Conscious stream 'Vithi citta'. Each one merges into the other. The subconscious stream is the hidden repository of all the impressions and memories of thoughts that pass through the conscious mind.

All experiences and tendencies are stored up there, but they exert an influence over the conscious mind without it being aware of the source of this influence. These two streams of mind being conditioned by each other. The state of the active conscious mind and awareness is generally present during the day when one is awake. It is conscious of all impacts and impressions continually received from outside, through the 5 senses or of sensations received from within by way of ideas or thoughts or recollections of former thoughts. When this conscious stream which is constantly receiving sensations from within or without subsides into inactivity, as for instance during sleep, the other stream the subconscious (Bhavanga Citta) manifests ~ flowing like an undisturbed stream so long as the conscious stream does not arise to disturb it through the sense channels. When awake every time an arisen thought of the conscious mind subsides and before the next thought can arise within that infinitesimally minute fraction of time, the subconscious stream intervenes. Then when the next thought of the conscious mind level arises the subconscious stream subsides into inactivity. Since innumerable thoughts arise and fall one after another during the day so then there are innumerable momentary interruptions to the flow of the subconscious stream during the day. The subconscious is referred to as a state of subliminal activity, viz. an activity that takes place below the threshold of the conscious mind, an activity of which therefore there is no awareness on the conscious mind. The conscious stream holds only one thought or idea at a time whereas the subconscious stream holds all the impressions of all the thoughts, ideas and experiences that enter and leave the conscious mind. This subconscious life stream allows us to have a memory, conditioning our thinking and action. The Bhavanga is the 'bhava' (existence) & 'anga' (factor) 'Bhavanga Citta' is the indispensable factor or basis of existence.

The factor of life by means of which the flow of existence or being is maintained without a break the continuing basis or undercurrent of life, the stream of existence keeping life going. This stream of being is an indispensable condition of individual life. It is comparable to the current of a river when it flows calmly on, unhindered by any obstacle and when that current is opposed by any thought from the world within or perturbed by tributary streams of the senses from the world without then thoughts in the conscious mind stream arise. There is a juxtaposition of momentary states of consciousness subliminal and suprasubliminal throughout a lifetime'

This essential conscious ~ subconscious life stream is felt as a flow of sensations on the body/mind; An equanimous, detached awareness of this ever changing flow of sensations, 'Sampaggana Satimo' is 'Vipassana, Insight Meditation' (As taught by S N Goenkaji & U Ba Khin, www.dhamma.org).

Used in practice to help us realise our true Inner Cosmic being. See BPS; 'The Four Sublime States' by Nyanaponika Maha Thera.

ABOUT SUNNY JETSUN

Inspired by the sixties Sunny started traveling the world in 1970. His spiritual journey on the hippie trail to India took him through San Francisco, Los Angeles, London, Amsterdam, Paris, Vancouver, Sidney, and Kathmandu to Varanasi. His arrival on the sub-continent was the beginning of writing autobiographical verses capturing his travel experiences, encounters with remarkable people and his quest for self-realization. Combining experimentation with drugs, sex, rock & roll, meditation, Love and life in general. Sunny started to open up to a multi-dimensional Universe. He lived the mantra, "Turn on, tune in, drop out" realising Mind's-illusions, inspired by deeper feelings of holistic nature, empathy, energy & Space.

Over four decades Sunny has written and published 27 books of poetry, created over one hundred paintings, traveled the World and considers his masterpiece to be his daughter. He has spent the past fifteen years in Goa, India inspired by the freedom to experience and idealism of human consciousness.
