*Once I read a 'Dictionary of Battles' which showed that historically humans in parts of the world have been murdering, raping, pillaging and massacring other human beings (Who as the enemy either deserved it or not or for just being in the way or they had some hidden treasure!) since the beginning, which in this book went back to Egyptian pharaohs. Even the holy 'Bhagavad Gita' is basically about winning a war for the good old reasons of family, feud, revenge over a woman, an insult, cheating over property, a crime whatever you like that eventually pisses you off! Now this violence seems to be a part of human nature and either you win or lose through spirituality, where you realise it's all material illusion so it doesn't matter if you get a spear in your head or you get tooled up with the biggest battle axe or canon or horse or hero or Zeus or Arjuna to help you. Or you sacrifice a few slaves to God or blow up a school bus or drop a Patriot missile on a wedding party or hospital by mistake! It's a f.....g collateral mess for those who happen to be 'Target de jour!' And for what? We are obviously still poor barbarians or worse and it is throughout the culture/system/indoctrination/Ideology as in '1984' At least by realising that our enemy could be from the next village and to treat everyone kindly, humanely, then we all have a better chance to

On the record price paid for a Picasso, \$179 million

Does anyone prefer the Picasso that was sold last week for a record price \$179 million? Also there was the highest price paid for a 20 carat blood red ruby and a sculpture by Giacometti. At least it was bought at auction in a 'free market' for billionaires. However it does seem clear that objects are worth a lot more than Life itself, UNFORTUNATELY\*and God kicked Adam & Eve out of Paradise for eating an apple \* and still he has never forgiven them and nothing much has changed since the beginning of time! Very sad but don't we agree that Life is intrinsically more amazing than these seeming perversions! And Adam is still loving Eve somewhere and Rothko (see Rothko/Picasso in 'The Power of Art' by Simon Schama, BBC) had a great creative soul as did Picasso and the price of Art shouldn't distract us from our human brilliance in an apathetic, greedy, Ego Capitalist world.

\*

To be honest I wouldn't buy it even if I had the money to 'Invest.' If Picasso's name wasn't on it I wouldn't pay \$179. However the same rational could be applied to many other things eg. football players' wages, but again I never go to a football match. It's not my money that is being spent, then the question is where did that money originally come from? Basically it's all corruption until each person is able to have a basic living with nourishment & security etc. That seems unrealistic only in the sense that we would have to change the economic/psychological paradigms but it is a basis for humanity and the Planet to survive in Peace. Is there any example of this existing today? Some say Iceland but then there is always the fear of Genghis Khan or any other tyrant turning up at your front door

*Still development of human consciousness would be a good step forward BUT do the people in power want to risk losing their Power? It's another contradiction that at least shows the rest of us how things are working within their Matrix and then it's up to us to 'Live the life we want to see in the World'. ### International Defenders of Human Rights

*Why does society allow for the persecution & prosecution of the Truthsayers, from Socrates to Galileo & recently Mohammed Ali, Elsborg, Assange Manning. Snowden? These are the messengers describing to us the heinous crimes of our leaders, whether Political, Religious, Social, Corporate, Military etc. These crimes take all forms but all of the perpetrators are allowed to escape investigation and justice! The list is endless yet it is these messengers of Truth who are allowed by us to be sacrificed! Ask Why? 'Edward Snowden took the morally courageous step to tell the truth of Illegal Government activities at the highest level of Intelligence taking away people's democratic rights. As a whistleblower telling the World the truth (for which he has now been vindicated by the US Appeal Court) he put his own life in extreme danger as can be seen by what has happened to US and other whistleblowers. They are then made to be seen as the real criminals by these same Authorities' 'legalised' illegal abuses of Power.' Here is a Prime example, made for us to 'see' these obvious Contradictions showing clearly their lies, made to control our minds, bodies, emotions, psyches & spirits. These people have made clear to us Governmental criminality and corruption and they're now being imprisoned even though they're acting on behalf of all of us! 'The Truth will set us Free' which is the basis for all Democratic nations' rhetoric but it is now Proven to be a SHAM! They don't want the Truth to unveil their own treachery! Let us at least realise this and demand that justice be served on these criminals, sociopaths and we realize we're being enslaved inside a political, economic, military Matrix.*

*And to show this is a Global Political Corp. phenomenon eg. in India it's used to Control people as anywhere else! It's difficult to become AWARE of the ubiquitous Matrix net and its malevolent consequences on our social lives and on our perceptive levels of integration with nature but the signs are clearly there. When Governments take such obviously 'Incomprehensible' actions against humans and nature then these clear contradictions can then allow us to see the light through the Mind-controlling, propoganda and brain washing. These are precious moments for our 'Enlightenment' and are to be 'Realised as such'. 'Authorities' banning of Greenpeace, Oxfam, Amnesty International and any independent observers of Governments are clear signs that they have something they want to hide which is not in our interest. How can any of these be legitimate when their people do not even have the basics of life such as food, shelter, clean water, child care, security and Peace. They can talk all they like about Economic prosperity, GDP political freedom and the rest of it and WE should know that it's all lies, illusions & bullshit. Awake and live our truths in spiritual solidarity!*

"People who cheat seem to succeed in this life" he said.

Hardest part of being a parent is watching a child go through something really tough and not being able to fix it for them

These are the biggest lessons to have to finally surrender to and let the Universe take its course giving up our controlling/parental part of the situation and have faith knowing that our most beloved will survive and will come through with light shining & a big Smile wiser in their own knowledge of their deepest selves from this experience.

When we're dealing with outside forces which seem so closed, cynical, ignorant, prejudiced and uncaring who have the Power to change things with a nod or signature or realisation of the Truth, or more time spent on getting the right medicine or the next piece of the factual evidence. We are put into their hands and often they fail thru greed, hate, lack of interest, corruption, misunderstanding. These dark nights of the soul can break our heart, take us to the limits of our Mind, show us parts of Spirit we never knew we had!

Fear can fill the darkness and we feel completely alone ~ depressed often surrounded by people who are seemingly enjoying their own lives oblivious to what else is happening around them! We look into the eyes of these fellow humans and wonder WTF. is really happening as we feel so isolated!

A friendly 'Human' gesture can make all the difference to people suffering in these circumstances. Every day such painful events occur... in Nepal, Syria, the village down the road, to a girl next door, the fear of losing our most loved ones! Friends who care and love you will do their best holding up the light in the darkness is life saving & gives us courage to carry on. ### Wikipedia *'Passive-Aggressive Disorder'*

*'May stem from a specific childhood stimulus (e.g alcohol/ drug addicted parents) in an environment where it was not safe to express frustration or anger. Families in which the honest expression of feelings is forbidden tend to teach children to repress and deny their feelings and to use other channels to express their frustration. **Passive aggression** can also be seen as part of a larger umbrella of hidden anger stemming from ten traits of the angry child or adult. These traits include making one's own misery, the inability to analyze problems, blaming others turning bad feelings into angry ones, attacking people, **lacking empathy**, using **anger to gain power**, confusing anger with self-esteem, indulging in negative self-talk. Lastly, the authors point out that those who hide their anger can be nice when they wish to be.'*

\*\*\*\* What is the Universe telling us?

that sometimes these rigid, basic forces have some power over us...and any system does. I'm now in between the UK and Europe trying to decide which place in the World to put roots, where the best system has less demands even when I die! They strangle us and control us at every turn by their very nature and so WE have decided - to be free of it as much as possible. BUT in some cases they catch us because we fell into their trap or were put into their Matrix unsuspectingly.' The World is full of 'victims' as we know. It's for us to stay above it, to be Universal whatever they throw at us. Nailing the best to a cross as an example or this Saudi blogger who is getting f...d for asking for some basic human rights or those innocent people in Bangkok blown up yesterday! Or more 'mundane' stuff that is this covert, criminal poisoning of our environment ~ Ignorance par F.... Excellence. Even with someone we fall in love with they too can betray our trust! 'Dukkha' or their love is used by others to weaken us! The Universe is telling us to be\* \*Universal\* regardless of the shit of these ignorant people with their stupid laws! You are doing everything you can and so is Kali to come out of this Black hole. There is even crazy 'realism' to it in the sense it is existing as a 'negative' but we have to transmute it with our truth and light whatever it takes to be free. We have to apply Love \* Power\*focused attention on these closed-minded people to break their Matrix! Yes ~ we're estranged from their small world but our bigger positive intention will force this Mind-Fearing to collapse! We just keep focused on this here and now ~ be patient!

## ABOUT SUNNY JETSUN

*Inspired by the sixties Sunny started traveling the world in 1970. His spiritual journey on the hippie trail to India took him through San Francisco, Los Angeles, London, Amsterdam, Paris, Vancouver, Sidney, and Kathmandu to Varanasi. His arrival on the sub-continent was the beginning of writing autobiographical verses capturing his travel experiences, encounters with remarkable people and his quest for self-realization. Combining experimentation with drugs, sex, rock & roll, meditation, Love and life in general. Sunny started to open up to a multi-dimensional Universe. He lived the mantra, "Turn on, tune in, drop out" realising Mind's-illusions, inspired by deeper feelings of holistic nature, empathy, energy & Space ~*

*Over four decades Sunny has written and published 28 books of poetry, created over one hundred paintings, traveled the World and considers his masterpiece to be his daughter. He has spent the past fifteen years in Goa, India inspired by the freedom to experience and idealism of human consciousness.*
