The Subconscious Undercurrent

Life stream is the creative energy free flowing ~

through sensations, essential for the human being to live.

This also dictates how we react to the outside perceived objects... with craving or aversion? This blind reaction from the deepest levels of the mind continues our ignorance and we create more negativities and defilements, which in turn effects how we react to the next cause. We then continue on this Karmic wheel of ignorance and suffering ~ If we become Aware, equanimously of the Sensations on our body/ mind, realising their illusory nature always changes, this allows us to Free ourselves from this chain of reaction and for the defilements to be expelled from the deepest levels of our Mind ~by detachment. Changes without any personal input through practice of Dhamma, Vipassana meditation. Its awareness will lead to a harmonious life. Trust this wholeness of life and be happy with no paranoia or fear. Knowing also anything can happen anytime ~ that this lifestream will leave when its time is right. Relax accept this natural existence, let it naturally flow, just be here now ~ enjoy the wonders of Life

ABOUT SUNNY JETSUN

*Inspired by the sixties, Sunny started traveling the world in 1970. His spiritual journey on the hippie trail to India took him through ~ San Francisco, Los Angeles, London, Amsterdam, Paris, Vancouver, Sidney and Kathmandu to Varanasi. His arrival on the sub-continent ~ was the beginning of writing autobiographical verses capturing his travel experiences, encounters with remarkable people and his quest for self-realization. Combining experimentation with drugs, sex, rock & roll, art, meditation, Love and life in general. Sunny started to open up to a multi-dimensional Universe. He lived the mantra, "Turn on, tune in, drop out" realising Mind's-illusions, inspired by deeper feelings of holistic nature, empathy * energy & Space.*

Over four decades Sunny has written & published 33+ books of poetry, created over one hundred paintings, traveled the World and considers his masterpiece to be his daughter. He has spent the past sixteen years in Goa, India inspired by the freedom to experience and the idealism of human consciousness.
